

DigitalRez Has Launched New Strata Website

June 04, 2018

June 04, 2018 -
DigitalRez, a reservations software business with offices in Barbados, Canada, and Australia, is proud to announce the launch of the new RezExpert Strata website, which can be found at http://stratapmsexpert.com/. The website includes a wealth of features and modules dedicated towards providing customer service for users of the Strata property management system. Additionally, a demo of the system can be accessed for free on the website.

Kevin Hall from DigitalRez says: "We are a company dedicated to customer service in the development, provision and servicing of the business technology requirements for the Strata property management system. With software solutions specifically designed to be fully integrated, easy to use and extremely reliable, we can cater to Strata institutions and businesses of all types and sizes."

The Strata system includes a number of key features. These are: CRM features, online strata access, unique accounts, a branded app, credit card processing, automated emails, access control, and reputation management. All of that is made possible through the RezExpert grid interface for the Strata system.

Kevin Hall explains: "RezExpert is the most advanced Java based property management system in the world. Utilizing a powerful, easy to use grid interface that replicates the familiar calendar. The grid can switch

between properties with numbers in each cell representing inventory. Easily switch to the individual unit view for listing by each unit within the property. RezExpert also provides right click functionality for shortcut access for speeding up property management access."

The Strata system comes with various other important features. These include central management, data mining, a document management system, multiple locations on one database, batch printing, strata client management, a maintenance module, dynamic reporting, automated billing, and IP security.

As stated, the website also offers prospective clients the opportunity to request a free and live demo of the system itself. Kevin Hall says: "We encourage everyone to contact us as soon as possible so that we can show you what our system can do for you. We will be happy to run you through all the different details and answer any questions you may have. Our contact details are included on the new website."
