

DigitalRez Announces Launch Of RezExpert Condo Property Management System

June 05, 2018

June 05, 2018 -
DigitalRez is a business that offers reservation systems, particularly for the hospitality industry. They are proud to announce the launch of the new RezExpert Condo Property Management website. It comes with a wealth of different features and modules suitable in particular for the Condo industry. A free demo is also available on the website at http://condomanagementexpert.com/.

Kevin Hall from DigitalRez says: "RezExpert is a company dedicated to customer service in the development, provision and servicing of the business technology requirements for the condo property industry. With software solutions specifically designed to be fully integrated, easy to use and extremely reliable, we can cater to condo institutions and businesses of all types and sizes."

Features included in the new condo property management system are CRM, online HOA access, unique accounts, access to the branded app, credit card processing, automated emails, access control, reputation management, and the housekeeping module. Furthermore, it comes with central management, data mining, document management system, multiple condos held on a single database, batch printing, rental management, membership management, a maintenance module, dynamic reporting, automated billing, IP

security, and owner rental and inventory management.

Kevin Hall says: "RezExpert is the most advanced Java based property management system in the world. Utilizing a powerful, easy to use grid interface that replicates the familiar calendar. The grid can switch between properties with numbers in each cell representing inventory. Easily switch to the individual unit view for listing by each unit within the property."

A full visual demo of how the grid and the overall system works can be provided through the new website and people are encouraged to take advantage of this option. Hall adds: "RezExpert also provides right click functionality for shortcut access for speeding up property management access."

The new system is on track to becoming one of DigitalRez's popular property management systems. The company is fully committed to always offering the most up to date and relevant technologies and solutions to the condo industry. They now play a role in the management of these industries on a global scale.
