October 28, 2016 - PRESSADVANTAGE -

Sarah Davis, spokesperson for Hollywood, FL based company Cammile Q, has announced their latest release their Argan Oil, which is formulated to help customers care for their skin and nails. Sarah added that customers can use their natural oils for hair and face care as well.

The Cammile Q argan oil is currently being sold on Amazon in 4 ounce bottles, and to date has over 50 positive customer reviews. Cammile Q stated that their Moroccan oil is 100% pure and certified organic.

The company said that one of the popular features of their Argan Oil is its ability to help customers bring back that softness and shine into their hair. This is especially helpful for those who have damaged their frizzy hair. Sarah added that the oil is even able to help reduce the time it takes to dry hair when used regularly.

One customer wrote the following review on Amazon: "This was my first purchase of Argan Oil and I am really impressed with it! I have really dry hair especially when after I have a shower. It is un-combable until after I sleep on it. I put a few drops in my hair after I take a shower and it instantly revitalizes my hair and I can comb it any way I want. It also leaves it with a darker shine which is great. Being oil, it doesn't dry up but

it sinks in and lasts until I take another shower. It doesn't leave my hair or skin feeling greasy either. I will definitely be getting more!"

The Argan Oil by Cammile Q also helps to soften and smooth skin, but without any greasing occurring. When applied, the oil soaks into the skin, which acts as a moisturizer, but without clogging the pores. Sarah Davis stated that one thing customers will love about the Argan Oil is that it doesn't leave that oily sheen that occurs with other products.

The product is made from 100% organic triple extra-virgin Argan Oil, and there are no additives, alcohols or any other ingredients contained in the product. The oil can also be used to help strengthen nails and soften cuticles.

Another satisfied customer wrote the following in their review on Amazon: "I bought this mostly to use for my nails. It is definitely smoothing out the ridges, which was my biggest desire. For the hair, during these winter months when my scalp usually gets dry and itchy a few days after washing, the oil is keeping it nice and moist. I will definitely be getting more when my current bottle is gone!"

Cammile Q said that they are so confident that their customers will love the product that they are also offering a 60 day, no questions asked money back guarantee. They added that customer service was just as important for them as a high-quality product, and they encourage all customers to continue leaving an honest and unbiased review so that other shoppers can benefit from this information as well.
