

## **Breast Augmentation Honolulu Surgeon Named Top Contributor By RealSelf**

*June 06, 2018*

June 06, 2018 - PRESSADVANTAGE -

A plastic surgery clinic based in Honolulu, HI, is proud to announce that Randy Wong, MD, the clinic's plastic surgeon, has been named a Top Contributor by Realself. Indeed, Dr. Wong currently ranks as a 4.8 star surgeon after receiving 39 reviews. Furthermore, his RealSelf profile has been viewed over 41,000 times and he has provided 496 expert answers.

Dr. Wong himself says: "I am very proud to have been recognized as a Top Contributor by Realself. I am committed to not just offering my patients the best procedure possible, but also to educate them about their options. I welcome any and all questions in relation to plastic surgery, particularly breast augmentation, and my other specializations."

Dr. Randy Wong has found that breast augmentation is the most common procedure that is requested. As a result, he has included a wealth of information on his website to inform people of the benefits of having this procedure completed, focusing in particular on the improvement many women experience in their self-esteem following a breast augmentation procedure. Indeed, he has state about women who are unhappy with their current breasts: "This lack of satisfaction usually leads to self-esteem issues that can lead to depression and

an overall withdrawal from social situations. Before you give up and resign yourself to a life of dissatisfaction with your breasts, I encourage you to book in for a consultation and find out what can be done."

Those who have had procedures completed by the Honolulu Plastic Surgery clinic have taken to RealSelf and other review websites to explain how pleased they were with the results, which is one of the many things that has enabled Dr. Wong to be named as top contributor. One happy patient says: "Dr. Wong and his staff were amazing. I felt really taken care of and that I was in good hands. Dr. Wong was very professional and answered all my questions thoroughly to make sure I was making the right decision. I got out of surgery this morning and feel great. I love my boobs already and I know they're only going to get better as they drop."
