

Roofing Repair Service In Woodbridge VA Receives Glowing Review

June 12, 2018

June 12, 2018 - PRESSADVANTAGE -

Roofer 911, a roofing repair business based in McLean, VA, is proud to announce having received a new five star review from a happy customer and that they have turned this into a showcase video. The video can be viewed at <https://www.youtube.com/watch?v=1n8-pixzqng> where it went live on June 5, 2018.

In the review, the homeowner explains that she was extremely happy with the roofing repair service provided for her home in Woodbridge, Virginia. She was so happy that she wanted to tell others about her experience. Jennette Le says: "Super fast with replies. Very kind and professional. Understood my need for emergency repair because we were getting bad storms this past weekend. Got someone out the next day. Impressed and highly recommend."

As shown on the company's Google Maps page at <https://goo.gl/maps/m3w2m9SmEj52>, the homeowner is not the first one to have expressed satisfaction with the service that was provided for roof repair. In fact, after receiving 210 individual reviews, Roofer 911 ranks as a 4.9 star rated business, which is virtually unheard of in the industry. This is a true testament to the company's professionalism, attention to detail, knowledge, punctuality, and fair pricing.

The company also sees itself as a part of the community. After all, every home and business in and around McLean, VA, has a roof, which means that ensuring those roofs are in excellent condition is a community effort. One way in which Roofer 911 shows its community commitment is through its Facebook page at <https://www.facebook.com/Roofer911.roofrepair>. Not only is this page used by people to share reviews and testimonials, but the company also uses it to share news and information that are relevant to roofing issues in the area.

Jennette Le has noted that storms are quite common across Virginia and this has a significant impact on roof integrity. Roofer 911 often uses its Facebook page to share information about upcoming storms. Additionally, if a storm has hit, the company is not often to offer next day call out because they are too busy performing emergency repairs. This is also highlighted on their Facebook page, as well as on their website.
