

Innovative Pensacola FL Sunrooms Provider Now Offers Eze-Breeze Porch Enclosures

June 12, 2018

June 12, 2018 -

Pensacola, FL. - Local provider of Pensacola FL Sunrooms is proud to announce they are now offering "Eze-Breeze" Porch Enclosures to their already existing expansive line of innovative materials. Titan Sunrooms starts all projects with the most innovative building materials available on the market, and adding "Eze-Breeze" to their ultra-durable composite building products is a step in continuing that mission.

"PGT Eze-Breeze" enclosures let the warm breeze in and keeps the bad weather, and hot temperatures out, making outdoor spaces more inviting - a staple in the Florida Panhandle area. This versatile enclosure system features vents that slide either vertically or horizontally to fit the needs of any home or business owner looking to make additions or repairs. Fixed vents are also available to accommodate spaces above existing vertical- or horizontal-sliding vents, allowing for incredible floor-to-ceiling views.

Fred Genkin, owner of Titan Sunrooms understands the importance of choosing the best materials and companies to carry out the building process of screen rooms in Pensacola FL. He has previously stated, "The choices in building materials that you make now will have lasting consequences far into the future as your project ages over time and must weather the relentless beating of Mother Nature."

The parent company, Titan Building Systems, specializes in the manufacture of ultra-durable composite building products. These products are designed to replace traditional building materials such as wood, aluminum, vinyl, and steel. The Eze-Breeze Porch Enclosure option now available to customers is a perfect addition to the sunrooms, screen rooms, patio covers, and patio enclosure products Titan Sunrooms specializes in.

For more information about Titan Sunrooms, visit their Pensacola location, call their office at (850) 916-7660, or visit their website at https://www.titansunrooms.com.
