San Francisco, CA -- This international shipping company in San Francisco is starting to see more and more business. Their company is growing; to stay on top of their growth, they have decided to expand their marketing. Although they have been successful in the past, they are hoping these new developments will double or even triple their success.

PO plus is not changing their products, services, or packaging. They are not updating their image, mission statement, or office. They are building their internet presence. They are beginning to jump into the vast world of internet marketing.

Internet marketing, as many people know, is a unique side to marketing. It is a huge, delicate spider web that is artistically designed. When done right, internet marketing can make a company prosper.

"We are very excited to begin this journey," says Steve Martel. "We can't wait to see the great benefits of expanding our marketing efforts."

This San Francisco FedEx Shipping company is getting a new update on their website, entering the game of content/SEM work, joining different social media, and more. As they innovate their internet presence, they still work hard to deliver their client's packages safe and on time. Their hard work shows how reliable and efficient they truly are.

"In today's society, people are constantly making new connections and relationships on the internet alone," says Steve Martel. "We feel it's time to jump from our small, local pond into the vast internet ocean."
