

## **Adam Element's Type C to VGA Adapter Expands MacBook Screens Onto Monitors**

*June 25, 2018*

June 25, 2018 - PRESSADVANTAGE -

Adam Elements, an innovative leader in smart products and Apple accessories, introduces CASA V01, a mini adapter that's suitable to project onto a VGA monitor, compatible with laptops with a Type-C connector.

"Our CASA line, made up of cables and adapters, is specifically designed to provide USB Type-C connectivity solutions," an Adam spokesperson said. "Our CASA V01 type C to VGA adapter displays or projects users laptop screens, which makes it the perfect companion for presentations or an amazing home-cinema experience."

The adapter showcases screens in exceptional color and video resolution of up to 1920x1200, meaning it supports sharp resolutions from users Type-C devices. Its plug and play design allows users to display their screen on any VGA projector and display easily.

Its revolutionary USB Type-C connector is reversible, enabling users to connect it both ways. "CASA V01 was created to meet users needs as the era of USB Type-C was introduced into the world." Its aluminum casing minimizes electromagnetic interference, resulting in no freezing or motion streaks and better overall

viewing experience.

The small, portable adapter provides users with the possibility of adding a second monitor or mirror their display to increase productivity. "We believe that adding a workspace improves multitasking and increases efficiency at work, that's why we decided to create this adapter," the spokesperson added.

CASA V01 has no complicated software and doesn't need an external power supply to function. Users can purchase it on amazon.com, finding it in three different colors.

Adam Elements is a global leader that creates functional products that fit seamlessly into users everyday life. They provide advanced consumer electronics and services that benefit their customers. Adam Element's diverse product portfolio includes Flash drives, Type-C Hubs, Cables, Wireless Charger, Adapters, Power Supply Stations, Drone Accessories, and more.
