

Magnetic Cabinet Locks Announces Customer Appreciation Campaign

July 05, 2015

July 05, 2015 - PRESSADVANTAGE -

Spring Safe and Sound, a business in Elkhart, Indiana has created different sets of magnetic cabinet locks with keys. This is an update to their earlier product, which was a set of eight locks and two keys, as per the suggestions of their customers. In order to thank their customers, as well as show their appreciation for their helpful reviews and to introduce the new set to the world, they are running a variety of limited release special offers.

"We believe that our customers are the ones who have allowed our business to exist," says Sharon P. Ring from Spring Safe and Sound. "When they noticed that it would be more useful to have a number of different sets, we listened. As a way to say thank you to our customers for helping us improve our product, we are offering a range of special discounts."

The Evergreen promotion has been designed to introduce the new range of pack sizes to the general public as well. While restrictions apply to each of the promotions, they do enable customers to save as much as 30% on their purchases. This promotion is available for a limited time only, and people are encouraged to get theirs quickly.

The new packs include four locks with one key, two locks with one key, two locks on their own, and single keys. When people purchase two or more, they can save 10% on a qualifying item using code 42ZKN47R at checkout. Those who purchase three or more can save 15% on a qualifying item using code I16M6WCQ at checkout. Purchasing four or more means customers can save 20% on a qualifying item by using code FTJK993O at checkout. Purchasing five or more will lead to a 25% discount on a qualifying item with code AUU9M2PW. Finally, those who purchase six or more will be able to receive a 30% discount on one qualifying item by entering code YLBQIL73 at checkout.

The new range of pack sizes has proved to be incredibly popular with customers. "This product is GREAT!" says Katie M. Burwell. "It's a wee bit tricky to install, however, it works like a dream once they're in. Note: keep the magnetic keys out of reach of little ones, our daughter loves playing with them which is how we were locked out of our cabinets for a spell."

Customers are also keen to mention that the customer service offered by the company is incredibly good. It is believed that this is because they have a very strong social media presence through both Facebook and Twitter. They encourage any customer to send them a Tweet if they have any comments or questions on the magnetic cabinet locks. The business has a reputation of listening to suggestions and concerns, as they even have a dedicated Customer Experience helpline. Hence, sending a Tweet will never fall on deaf ears.
