

Adam Elements? iKlips II Frees Up Space On iOS Devices

July 11, 2018

July 11, 2018 - PRESSADVANTAGE -

Adam Elements, a leading manufacturer of flash storage solutions, unveils its iKlips II iPhone flash drive that offers a lightning and a USB connector. The iKlips II is a high-speed iOS flash drive that quickly and efficiently transfers files between devices.

“The iKlips II is the perfect storage device for users that want to extend their iPhone’s memory,” an Adam representative said. “After the iKlips’ first generation became an instant hit due to its revolutionary design we decided to take a step further and create the iKlips by improving its form and function to match the latest iOS devices.”

Its user-friendly app design, easily edits, copies and moves documents, videos, photos, music and more between iOS devices without an internet connection. Users are also able to back up their camera roll, calendar, contact list, social media accounts and Evernotes. Furthermore, users can lock their files by password or touch ID to protect their information.

The iKlips II extended connector enables easy plug-in even with the thickest phone covers. It also comes with

a silicone cover that protects both ends. The iKlips II was designed in red and grey and with three different capacities, 32GB, 64GB, and 128GB to meet user's needs. Its compact size design makes it easy to store and carry around. These MFi, Made for iPhone, devices are made with an aluminum body that gives them maximum strength while minimizing size and weight.

The flash drive's USB 3.1 connector has a read performance up to 150MB/s, and the lightning connector delivers speeds up to 35MB/s. In addition to compatibility with all major photo, audio, and document formats, the iKlips II supports 4K video recording directly on the device without taking up memory on the mobile device.

Adam Elements develops smart products including accessories for Type-C devices and DJI drones, flash drives, hubs, charging stations and a 10W wireless charger. For more information, readers can visit www.adamelements.com.
