

Boston Hookah Bar Expands Offerings

July 17, 2018

July 17, 2018 - PRESSADVANTAGE -

The Sheesha Lounge, based in Allston, MA, is proud to announce that they have expanded their various offerings, including food and drinks. Offering not just hookahs and shishas anymore, they now also offer tea and other drinks in a warm and friendly atmosphere. They are found in a fantastic location and have received numerous positive reviews, with people describing how much they love the hookah bar, and the warm friendly atmosphere and service.

Mark Burke from the Sheesha Lounge says: "Our layout and our approach is to create a warm atmosphere, an intimate atmosphere where you can come and meet new people. It is also where you can have great conversation, you can have great teas, coffees, and it's something that we take pride in."

Originally, the Sheesha Lounge was set up to sell hookahs, flavored tobacco, coals, pipes, and other hookah supplies. However, they soon discovered a local demand for a real lounge in which people could enjoy their hookahs, teas, and other Eastern products. It should be noted, however, that according to state law, those attending the hookah bar have to present a state issued ID to prove they are over 18 years old.

The lounge continues to sell a variety of hookah supplies that include Khalil Mamoon hookahs, Chinese hookahs, and Econo Mya series hookahs. Furthermore, they sell flavored tobacco, coals, pipes, and more.

Full details about buying hookahs and supplies are available on their website at www.hookahbarboston.com/hookah-sales/.

Being centrally located in Allston, MA, they encourage anyone to come visit the lounge and enjoy the hookahs and flavored tobacco, something that many people have taken advantage of.

Indeed, the Sheesha Lounge is quickly becoming known as the best hookah lounge in Boston. On Facebook, people frequently mention how much they have enjoyed the friendly, relaxing atmosphere of the lounge and the fantastic customer service they have received, either when buying supplies or when simply enjoying a sheesha with friends. People enjoy the atmosphere while listening to music and many come down to the lounge after a meal out with friends to unwind.

Most importantly, the Sheesha Lounge focuses on the quality of their products. This is true for the tobacco they use in the hookahs in the lounge, and also all the products they sell. Indeed, they believe that the quality of their hookahs is unsurpassed. They are also happy to speak to anyone who may have questions on how to use them, look after them, or enjoy them the most.

In the lounge itself, only the most premium hookahs are used. They also have a wide variety of flavored tobaccos to choose from. The lounge is open seven days a week until 2:00 am, and the owners encourage people to attend either at the start of the night or afterwards to unwind. They also offer a variety of soft drinks, coffees, and teas to enjoy together with a hookah, as well as both local and traditional snacks. For instance, baklava, a traditional Middle Eastern dessert, has proven to be very popular.

With the addition of the new coffees and teas to the menu, the Sheesha Lounge has been able to further create an atmosphere in which people can simply come together and enjoy each other's company. They have proven to be particularly popular with college students who often want to unwind after a busy day of studying or a heavy night of partying. Many have also stated that they have made friends for life in the lounge, encountering people with similar interests.

To further enhance the friendliness, togetherness, and community feel of the lounge, they have also added video games that customers can enjoy. In addition, they now offer people the opportunity to rent the entire lounge for special events, such as birthdays and other celebrations. Those who wish to rent the lounge can choose from a variety of different flavors inside the hookahs, thereby ensuring that everybody can try and experience new things.

This hookah lounge in Boston is not just affordable and welcoming for those who want to smoke a hookah. It is equally affordable for their supplies. They offer Al-Fakher Sheesha, Starbuzz Sheesha, and Fantasia Sheesha, three of the best known brands, for much lower prices than the majority of other supply stores.

Fantasia coals are also available, which are some of the best burners to use. Additionally, they sell a variety of pipes, thereby enabling anyone to build the sheesha of their own dreams that they are comfortable with. The company encourages people to come into the lounge first to experience the different hookahs, different pipes, and different flavors so that they can get a taste of what is available.
