Santa Rosa, CA, based company, Argan Beauty, is now educating their customers on the usage of Argan Oil twice daily in order to greatly improve the appearance of skin and hair. This education is being provided in the form of their website as well as through their marketing materials.

The argan oil is to be used once in the morning and once at night, especially on patches of skin that are dry or rough. The company has suggested that using this oil can help to rejuvenate and replenish skin that is damaged. Argan Beauty has said the following regarding their product: "Argan Beauty Argan Oil is 100% pure argan oil, with no additives, fillers or toxic parabens. Our all natural cold pressed argan oil from Morocco is produced under organic certified conditions to bring you what is quite simply the best and rarest oil on earth."

The company invites all those interested in learning more about their product to follow them through social media at <https://www.facebook.com/arganbeautyoil>. Here consumers can interact with Argan Beauty, read news and updates on products, view promotions and upcoming events, and see videos and photos posted by the company. They are known for using this account as a platform for posting advice, tips, and even instructions on how to get the most out of Argan Oil and its beneficial properties.

Argan Beauty believes not only in helping men and women to feel beautiful in their own bodies, but also in giving back. The purchases made through Argan Beauty are sourced through a Women's Collective, which helps to sustain the natural ecology and livelihood of women in rural Moroccan villiages. A portion of proceeds gained by the company goes toward local projects that benefit the communities of these women and help them to better the lives of their children and communities. One of their recent reviewers said of their experience, "I loved the fact that this Argan oil comes from a women's cooperative and is Organic. That makes me feel good knowing that I am supporting my fellow woman, and not harming the planet while doing so is a big plus!"
