Irwindale, California: Perfect Hair Focus, the supplier of coconut hair serum and argan oil shampoo and conditioner, has highlighted the benefits of using aloe vera gel for hair growth as a part of their 2018 campaign for promoting natural hair care products.

Aloe vera gel is obtained from the aloe vera plant, a thick leaved plant that contains a sticky, gel-like substance inside them. Known for its cooling properties, it is often used to treat skin injuries such as skin burns as well as helps in treating skin tan.

According to a spokesperson at Perfect Hair Focus, Allen Farrar, "Aloe vera gel is gaining renewed prominence in the hair care industry due to its almost miraculous ability in treating hair loss problems. We at Perfect Hair Focus have used it in our sulfate free shampoo and conditioner set, along with other ingredients such as coconut oil and keratin, to help treat dry hair and frizzy hair problems effectively."

The primary reason for aloe vera gel's use in the hair care industry is due to its supposed ability in resolving scalp inflammation issues. By cooling the skin in and around the hair follicles, it prevents the occurrence of itchiness caused due to a dry scalp as well as dandruff. Aloe vera may also be used to gently but effectively clean off any excess sebum produced by the hair follicles, keeping the hair dirt and grease free. This makes aloe vera a great product for people with both oily hair as well as dry hair.

Furthermore, it contains vitamins A, C, and E with all three of them contributing towards cell turnover, promoting healthy cell growth and shiny hair. Its high content of vitamin B-12 and folic acid helps in increasing hair strength and reducing hair fall.

Using the power of aloe vera gel and other natural ingredients, Perfect Hair Focus has now developed a unique hair serum which contains pure ingredients and acts as a natural hair product for damaged hair. It can

be found exclusively in their Amazon storefront as well as their official website here - <http://perfecthair.club/>.
