Bloomington, Ind. - High in sodium, rich in flavor ? Ramen noodles was a great invention. From being a delicacy ?foodies? tend to yelp to being a lasting meal for college students, ramen has many innovative uses. To William Pallett, it was a lifeline. With the help of a staffing agency in Bloomington, IN, William Pallet changed his life around.

After 40 years in prison, Pallett was released back into the world. Even though he served his time, Pallett was viewed as if he was still in the system. Job application after job application was handed out and submitted to local businesses around the area. All turned him down. They were quick to judge him for writing a checkmark in the small box: ?Have you been convicted of a felony??

After being declined time and time again, Pallett would return to his place of rest in a homeless shelter. Creeping thoughts would enter his brain, ?Is prison better than the outside world? Is the system the only place for him?? As a growing issue, many companies and individuals only saw him as a part of the system.

During one of his long days on the job hunt, Pallett came across an employment agency. When he walked in, he expected the same treatment he had always received, but this agency did not see him as other companies did. They didn?t see him as a part of the system; they saw William Pallett ? a man with a rough past that needed work. They knew Pallett was more than the time he served. Pallett quickly received his first job task at the local production plant.

At first, the local production plant was hard work for Pallett. It consisted of long work hours and little pay. Pallett didn?t back down; he didn?t return to his previous lifestyle. He fought the right way; he saved the right away. Pallett never used a penny that he didn?t first consider what for. As many people do, Pallett lived off ramen packages. They were cheap and filling. They had all the energy he needed. Yes, he got tired of always eating ramen. Yes, the flavor became bland, but he endured through. He continued eating the cheap packages, so he can save.

Now, William Pallett does not eat ramen. From the homeless shelter to his own apartment, Pallett changed his life around. From the local production plant to a restaurant, Pallett now works as a cook. He makes good, consistent money.

Living in prison changes people. It changes their thoughts, actions, and reactions. The system is an experience that most do not want to go through. Just because it changes others, it doesn?t always mean for worse. William Pallett is proof of that.

Pallett keeps four packets of ramen on top of his refrigerator. He doesn?t keep them for emergencies. They?re a symbol to him. They remind him of how something that seems so insignificant can make a significant difference. He saw that in ramen; Express Employment Professionals saw that in Pallett. Unlike other companies that only saw him as part of the system, this Bloomington temp agency saw him for so much more. They saw him as William Pallett, not just another part of the system.
