

Total Car Detailing Houston Offers Mobile Auto Detailing

August 03, 2018

August 03, 2018 - PRESSADVANTAGE -

Total Car Detailing Houston in Houston, TX, is proud to announce that they also offer mobile auto detailing, which provides clients a number of important benefits. Specifically, compared to traditional detailing companies, clients now have the benefit of no longer having to drive to a particular detailing shop with the disadvantage of having to find the time to have their vehicle detailed. They have also announced that they are running a special for a free exterior detail with a purchase of their Gold package or higher, which can be redeemed with code TCDH at checkout.

Garrett Laidler from Total Car Detailing Houston explains: "Doing a good detail takes time and time is something that most people are in short supply of. Furthermore, it can cost more money in just the equipment to detail your car correctly than just having a reputable company detail it for you. At Total Car Detailing, we not only come to you, but we are bonded and insured. We even offer a monthly subscription package so you never have to worry about a clean car ever again."

Total Car Detailing Houston is proud of the fact that they focus on every element of detailing. This includes the interior and exterior of vehicles. They even perform total showroom floor details if needed. Additionally,

they have gift cards available for those who want to give mobile auto detailing as a present to others. Garrett continues: "Since we come to you, you don't have to worry about waiting for your car to be detailed before you can have your errands done."

The company is quickly developing a reputation as the best auto detailing service provider in the Houston area. The reviews provided by satisfied customers speak for themselves, including the one left by Donnie G. on their Google Maps page: "Called Total Car Detailing, and set up an appointment for a full showroom detail for my Infiniti. These guys advertise being a mobile auto detailing company, and came to me at work. Didn't lose any time without a vehicle, and they set me up on a monthly subscription which is very convenient for me as I love having my car look fresh all the time. They are bonded and insured, which I love, and guarantee their work. Highly recommend these guys. They did a fantastic job."

Total Car Detailing Houston prides itself on the extensive experience of the members of its team. All employees are skilled and highly trained, as well as being passionate about the work that they do. Not only do they detail vehicles, they also help to restore and protect them. They have a wealth of experience on a variety of different types of vehicles and always keep up to date with the latest tools and technology available to create an amazing finish and provide vehicles with long term protection.

In addition, the business has very strong ethics, something they are very proud of. Garrett continues: "We believe in living by the golden rule and treating our customers the way we wish to be treated and taking care of your car as if it was our own. We are fully committed to meeting the highest standards of principled performance, integrity, transparency, and honesty. We hold ourselves accountable and do the right thing and in the right way."

Team members always listen to their customers so that they can truly understand their needs. They also educate their clients so that they can understand how to best look after their vehicles themselves. Furthermore, they complete their work in a high security space so that people can be assured that their treasured cars are in good hands at all times. Garrett explains: "For those who say they want to 'find car detailing near me', they need not look any further. We guarantee that we are safe, secure, insured, licensed, bonded, and certified. Plus, we have a 24/7 security monitored shop, so your car will be in good hands."

Total Car Detailing sets itself apart by being highly innovative in every element of their service. All of the tools and techniques they use are the most up to date and modern available. They also use only eco-friendly and VOC-compliant chemicals, automotive rendered lighting, a controlled clean room, pneumatic powered tools, paint refinement machines, infrared thermal cutting lamps, a digital microscope system, and digital paint assessment gauges.

Finally, they consider themselves as being exclusive. Garrett says: "We use the best that is available.

Through our willingness to learn and test, industry-leading technology, and innovative thinking, we are very selective and only partner with the world's most exclusive automotive surface protection and reconditioning that is available only to select detailers."
