August 01, 2018 - PRESSADVANTAGE -

Fresno CA: A European Grove Wathen home is set to hit the market on August 3 in Fig Loop, Fresno CA 93711. Jason Nenadov of Equity Assets Real Estate made the big announcement on his website earlier this month, bringing to light some major details about the property.

The property that is coming on the market this August is a two-bedroom, two-bathroom home that features a den/office space, a dual sided fireplace in the living area, an isolated master bedroom and a sliding door that leads onto the back patio. According to Jason, the property's 1,271-sq. ft. floor plan is not the smallest available but it is compact enough to turn into a turnkey rental property. "Because of the setup with an office, it makes it perfect for a young working professional or anyone who could take advantage of a home office space," Jason said, adding that the HOA fee for this home costs just around \$70 or \$80 a month.

Built by Wathen Castanos Homes, the property is energy-efficient and features a magnificent design. Through the years, Wathen Castanos has established its reputation as one of the best builders in the area,

building homes that boast of their curb appeal and well-thought-out designs. The builder's European homes have also made a name for themselves through the Fresno and Clovis home market since they were introduced in 2006.

In his announcement, Jason advised interested buyers of the property to make the decision to purchase it as soon as it hits the market, suggesting that the competition is tough. "These homes do not last long on the market due to their affordable prices and desirable location and construction. This gated community offers peace of mind as well as pride of ownership," he said.

As a real estate broker, Jason has always been committed to assisting homebuyers and sellers in Fresno and Clovis, CA. His website has been a valuable source of information for people who want to buy or sell homes in these areas, regularly offering new insights about the different aspects of real estate. This website also features his blog, which he uses to deliver expert advice to homebuyers and sellers and to give them a heads-up when there are new listings in specific neighborhoods.
