

Grilling Accessories Launched By Jaci Global

August 16, 2018

August 16, 2018 - PRESSADVANTAGE -

Jaci Global LLC, a business in Cape Coral, FL are proud to announce that they have launched a new product, their BBQ tool set. It joins the company's other highly popular products, specifically the yoga mat towel and yoga mat bag. The new grilling accessories are currently available exclusively through Amazon.

Betty A. Stanley from Jaci Global LLC says: "We are very proud to announce the launch of our BBQ grill tools set with bonus aluminum storage case. We also have a three piece version available for those who require fewer tools. The product is made of highly durable rust proof stainless steel and comes with sturdy serrated edge thongs. These enable people to easily and quickly flip on the grill and take meat on and off it. They're the perfect accessories for those who love to barbecue."

The company strives to ensure the high quality of their products. Hence, they guarantee the sturdiness and durability of the BBQ tools, manufacturing them using only premium grade stainless steel. This ensures that the tools are rust proof, highly durable, and very sturdy. Betty A. Stanley says: "These are designed to last you a lifetime and will never rust."

While only recently released to the market, the product has already grabbed the attention of many avid BBQ-ers. They love how functional the set is and that it comes with everything needed for a BBQ cookout. "I

truly love this set! I use it for my portable grill when camping. I love the fact that it all fits into a neat case which stows compactly into my RV storage. All my BBQ utensils are quickly accessed when needed. The utensils themselves are sturdy and high quality...", says an Amazon customer.

The product is a five piece set of utensils. Included are the grilling spatula, the tongs, the blasting brush, the meat fork, and the grilling knife. That is all someone could need to have the perfect BBQ. Because the product is stainless steel, it is also very easy to clean and the bonus storage case allows people to keep their tools together safely and neatly until the next cookout. Betty A. Stanley explains: "You simply cannot go wrong with this BBQ tool set. It has everything you could possibly need and we guarantee that you will enjoy your cooking experience every time you use them."

Jaci Global LLC has spent a great amount of time on the research and development of this particular product. They wanted to create the ideal outdoor and portable BBQ kit, which meant designing something that would stand the test of time. Every detail has been scrutinized and the manufacturers are particularly happy with the construction of the handle of the tools as well. According to Betty A. Stanley: "A good BBQ tool set is one that is not just useful and durable, but also one that is comfortable to use. The handles have been incredibly well-constructed, which means they feel lovely and comfortable to hold when you're grilling. Ultimately, we believe that this means you will grill even more often. Before you know it, you will be a champion cookout chef in your local area. With this grill set, you simply cannot go wrong."

The bonus aluminum storage case that comes with the grill accessories set has also been very positively received. People appreciate the fact that each element of the set can be stored individually so that they can be displayed and also so that they can easily be accessed and prevented from scraping against each other. The ease of use of the grill utensil set has certainly stood out among those who have already purchased the set, including the fact that it is so multi-functional and can be used on larger and smaller grills alike, including during camping trips. "...But we were looking for shorter tools to use on our smaller grill. It was difficult to find smaller tools. My husband was excited when he got his early Fathers Day gift...", says an Amazon customer.

The company fully stands by the quality of their product. In support of this, they offer their product with an unconditional 100% money back guarantee. This ensures that people can purchase the product without any risk. Furthermore, they now offer a free additional lifetime warranty with every purchase of the set, which buyers can register for through the company's website. They also recommend that people visit their Facebook page for information on how to have the perfect barbecue and use each of the tools in the proper manner for the best results.
