

Biotin Shampoo Brand Comments on the Possible Effectiveness of Hemp Seed Oil for Hair Growth

August 14, 2018

August 14, 2018 - PRESSADVANTAGE -

Perfect Hair Focus, the Irwindale, California based company that is known for its biotin shampoo has released new information regarding the benefits of using hemp seed oil for hair growth as a part of their 2018 healthy hair awareness campaign.

Argan oil and coconut oil are two popular hair oils that are possibly effective in providing one's hair with the right amount of shine, moisture, and bounce. Similarly, hemp seed oil may also prove to be effective in promoting better hair health.

According to the spokesperson at Perfect Hair Focus, Allen Farrar, "As a company invested in using the best natural ingredients for creating organic hair products, especially shampoo for colored hair, we have already been proving our customers with the goodness of hemp seed oil through our latest line of sulfate free shampoo and conditioner."

A study published in ACS' Journal of Agricultural and Food Chemistry has found out that hemp contains high levels of vitamins A, C and E and beta-carotene, and it is rich in protein, carbohydrates, minerals, and fiber. It contains essential fatty acids as well as gamma-linoleic acid, compounds that contribute to keratin formulation which makes the hair healthier and stronger.

Well suited for color treated hair, it contains lipids that may improve the elasticity of hair thus increasing its volume and shine. But the primary reason for its use lies in its rich vitamin E content, which promotes cell growth and rejuvenation when applied externally, both for the skin as well as for the hair.

Useful in its ability to maintain the natural texture of hair, Perfect Hair Focus has included hemp seed oil as one of the natural ingredients used in creating its latest product line of moisturizing shampoo and conditioner. The product is already proving to be popular with its users with one person stating, "I bought this due to extreme hair loss and no growth. And I have noticed just within a few weeks a difference in length. They smell great and lathers up really well." To learn more about this natural shampoo and hair conditioner, visit
