

Adam Elements Launches USB-C Solutions For Speed and Convenience

August 18, 2018

August 18, 2018 - PRESSADVANTAGE -

Adam Elements, a leader in smart mobile accessories, announced the USB-C to USB-A CASA M100 cable available now on the Adam Elements website. CASA M100 delivers speed and charges devices through a one-meter cable. It comes with a reversible USB-C connector that allows easy plug-in regardless of orientation.

CASA M100 enables faster data transfers which can be used with many USB-C devices such as all MacBook, Chromebook Pixel, and phones. The connectors achieve data transfers of 5Gbps making them capable of handling high volumes of video and data. CASA M100 is a cable that rapidly charges and syncs the latest smartphones and tablets.

“As USB-C became the next generation technology, we decided to create a line of accessories that would deliver safety, speed, and convenience to customers,” an Adam representative said. “Our USB-C cables are made to meet the highest international quality standards and are the ideal solution for customers looking to charge, sync, and transfer data to or from their mobile devices.”

CASA M100 is made with aluminum caps and a one-meter nylon fiber braided cable which prevents it from breaking or bending. It stands out from the other cables in the market as it is available in four color options, black, rose gold, red, and gold.

Adam Elements focuses on smart products that fit people's modern lifestyle. Readers can find their accessories and technology available for purchase on Amazon.com, they can also find the company on Facebook where customers can stay up to date on new product announcements. Adam Elements manufactures mobile accessories for phones, computers, drones, and homes. OTG devices, along with intelligent software applications, provide customers with a vast range of products and services. It's a company that thinks from the angle of common utility combined with aesthetics to produce products and apps that provide a more diversified, smart life.
