

Pet Grooming Service For The Fall And Winter Months Launched For Seattle Area

September 10, 2018

September 10, 2018 - PRESSADVANTAGE -

My ownly, a pet caregiver business in Monroe, WA, is proud to announce that they have launched a pet grooming service for the Seattle area that is designed specifically for the fall and winter months. Already known as provider of the best service for pet grooming Seattle residents can depend on, My ownly is now one of the few services of its kind that offer a trim that ensures protection of pets from the harsher, colder, fall and winter months. People are encouraged to book their pet in as soon as possible.

Cathi Tower-Chriscaden from My ownly says: "We provide premium dog boarding, cat boarding, dog grooming and cat grooming for clients from Monroe, Snohomish, Gold Bar, Sultan, Startup, Maltby, Bothell, Kirkland, Redmond, Bellevue, Mercer Island, Everett, Marysville, Mukilteo, Edmonds, Lynnwood, and all over King County, Snohomish County, and Pierce County. We are very proud to be able to offer a grooming service that helps everybody's favorite four legged friends be ready for the upcoming colder seasons. Do contact us to book your cat or dog in as soon as possible."

Dog and cat owners alike are welcome to book their pets at My ownly for their grooming. The salon has been designed to be attractive to pets and maintains the highest levels of cleanliness. The company only employs professionally trained groomers who understand the needs of different breeds and the impact of seasonal changes on their fur. At the same time, they are happy to trim breeds as per the specifications of the owners.

The groomers set themselves apart not just by their grooming skills, but also by their ability to create a safe, gentle environment in which even the biggest dog will be happy to have its nails clipped. Every animal is treated like a member of the family.

A number of services are offered for dog grooming and people are encouraged to contact the salon to determine which services are most needed for their particular breed of dog with the upcoming change of seasons. Options include nail trimming and/or dremmeling, a full bath with organic shampoo that includes a body massage, glands expression, face scrub, ear flush, nail trim, a full body brush out to accelerate shedding, a trim or shave down that can include tidy up feathering, a breed specific style or hand stripping for

wire-coated breeds, and feet and bum trimming, which is a sanitary procedure. Cathi Tower-Chriscaden adds: "And for those extra fancy dogs, we even offer nail polish in multiple colors."

Those who have used the salon services for their dogs have been incredibly happy with the care and attention their pets have received. For instance, Janelle FB says on the company website: "My almost 15-year old American Eskimo dog has always received the very best of care at Myownly. Now that he is getting older, they groom him with gentleness, care, and deep understanding of his limitations and age. I wouldn't take him anywhere else."

Meanwhile, the salon now also offers seasonal grooming services for cats. Specialized equipment are available to ensure that cats remain calm and comfortable while being bathed, brushed, trimmed, or otherwise groomed. Depending on the breed, different procedures will be available, including nail trimming, a brush out, and trims or shave downs, where the legs and tail are tidied up as well.

My ownly has set itself apart as the go to place in Seattle when it comes to pet boarding and grooming. Marilyn N. says on the company website: "All of my dogs over the years have been groomed and boarded by Cathi and her team. Whenever I had emergencies where I couldn't take care of my dogs, the kennel was always there for us. Knowing that my dogs were safe and being taken good care of always took the stress off of my shoulders. When it comes to grooming Cathi is the best. She takes care of each dog's individual needs, whether it be for an elderly dog or show dogs they look their absolute best after leaving the kennel. The dogs are always happy and excited to come to see Cathi and her team. The kennel has a huge indoor space where all the dogs can socialize with each other. The employees are so good with the dogs, they are constantly interacting with them. Recently I was hospitalized and Cathi took excellent care of my Lala for me since I couldn't. Since I have been boarding my dogs here for 20 years I knew I didn't have to worry about Lala while she was with Cathi. The main reason I am writing this review is to thank Cathi and her team for the great work they do every single day."

People are encouraged to book their pets in as soon as possible.
