

Private Investigations Company Launches Online Call Button

September 10, 2018

September 10, 2018 - PRESSADVANTAGE -

Premier Process Services of Western New York is a licensed and experienced private investigation firm in the area. Those who require a private investigations team to help them ascertain whether there are problems in their marriage, or want to try to find someone, can count on the team to help them. In addition, they also deliver legal documents in the Western New York area. They are proud to announce that they have updated their website so that it now includes an online call button.

A representative from Premier Process Services of WNY states: "We want to make sure that our clients and prospective clients can always get in touch with us in a discreet manner. Hence, we have recently integrated an online call button on our website to make it much easier for people to get in touch with us."

One of the services that the company can provide is process serving or delivering legal documents. They have five years experience of doing so across Buffalo and Rochester, ensuring that all documents are served professionally and on time. A dedicated team of professionals ensures that the Western New York legal community is able to meet all rules and regulations. The representative continues: "At Premier Process Services of WNY, we offer a reliable, professional service and outstanding communication to our clients. While we are large enough to handle all of your processing needs, we are small enough to ensure that our clients always enjoy the personal attention they receive. Do call us to discuss your needs."

What has really set the company apart, meanwhile, is that they are a licensed private investigative firm. They offer their services to individuals and even insurance companies, law firms, corporations, and more. They have worked in various areas, such as criminal defense, asset searches, personal injury, background checks, divorce investigations, workers' compensation investigations, individual location, and more. The representative continues: "It's no secret that workers' compensation and divorce can be very complicated and complex areas of the law. There are times when it is necessary to determine the validity of claims of injury or infidelity in the case of a divorce. We offer investigations such as background checks, video surveillance, evidence gathering, interviews and research, surveillance, and more. We guarantee to be discreet and professional in all situations."

Thanks to the new online call button, people can now immediately schedule a free, no obligation consultation for their investigative needs. The company guarantees to respond promptly to calls as well as provide a cost effective service. Indeed, the satisfaction of customers lies at the heart of everything that they do. Those who have worked with the company have often expressed how pleased they were with the service they have received. Max D., for instance, says on Google: "This guy will do it right, especially for someone that is trying to evade service. I wasted my time and money on 3 other companies. When I talked to Mike on the phone and he asked all the right questions I knew this guy knows his business. Don't waste your time with any other."

Premier Process Services of WNY is happy to deliver any type of legal document in Western New York. They guarantee to do it correctly and quickly, again also offering highly cost effective solutions. They have worked with some of the most prestigious law firms in the area, setting themselves apart for their competitive, flat fee pricing structure and speedy, professional service. The new online call button enables people to request further information on this service as well. The website also includes full details about the pricing structure that they offer.

According to the representative: "Our company never charges for mileage. For clients that require expedited service, we provide Same Day and Rush service. We serve documents in Erie County, Niagara County, New York State, and nationwide. We can serve summons and complaints, subpoenas, orders to show cause, family court and child support and custody petitions, eviction petitions and 3 day rent demands, actions for divorce and summons with notice, motions, court filings, surrogate court matters, matrimonial matters, foreclosure documents, and citations. Our rush service means that you can have your documents served within 48 hours but we even have a same day service available. Our routine service is three to five days."

The company aims to continuously improve their services, both in terms of the work that they do and in terms of the customer service that they offer. They are also in the process of launching their social media pages. This will give people even more opportunity to contact them in a confidential and private manner.
