BBQ Tools Set Now Comes With Free Lifetime Warranty

August 24, 2018

August 24, 2018 -
Jaci Global LLC, a business based in Cape Coral, FL, has recently launched a BBQ tools set. The product immediately became a bestselling item, in part due to the uncharacteristically warm summer enjoyed all over the world. The company is proud to announce that they have now included a free lifetime warranty for their customers as well.

Betty A. Stanley from Jaci Global LLC says: "We fully stand by the quality of our product. We now offer customers a free lifetime warranty to further support that. They can register for this through our website, which means those who have already purchased the set in the past can also benefit from it. This is our way of saying thank you for our customers' continued trust and support."

The barbecue tool sets are either three-piece or five-piece and are made of premium stainless steel materials, which is what has enabled the company to 100% guarantee their quality as well. They are highly durable, rust proof, and very sturdy. Hence, the grill spatula and other tools included in the set are expected to last forever. Thus, the company offers a lifetime warranty for the tool set.

Most of all, Jaci Global LLC has aimed for a grill set that is fully functional and includes everything that people could possibly need for their outdoor cooking event. The three piece set includes tongs, a grilling spatula, and

a meat fork. Those are all the essentials required for a good barbecue. The fact that there are just three utensils included, which are all stored in the included fabric case, is precisely what has set it apart for the Jaci Global LLC customers, who have left a variety of positive reviews. "I chose this set over many, many others because these are for my boat. They are compact (shorter), stainless steel with no wood or "rubber" to fall apart, and easy to store (and find) in the provided case. As an unexpected bonus, the shorter tongs work better than longer versions...," says an Amazon customer.

Both the three piece and five piece sets have been designed with performance in mind. Each utensil comes with a well-constructed handle. The handle is ergonomic and therefore comfortable to hold, making it easier than ever to flip burgers or move coals around. Betty Stanley explains: "It is so comfortable to hold that you may just find yourself having a barbecue every night. Ultimately, you are almost guaranteed to grill more often than ever before, which means you will become better at it as well. Our set really has been made with enjoyment and love for food in mind."

Jaci Global LLC points out that the barbeque accessories set is top rated and made to last. Indeed, the company has even included the aforementioned fabric case, made from Oxford fabric, which has been designed to make it easy to store the accessories away while protecting them at the same time. Additionally, the case isolates each piece so that they can be displayed and to make it easier to access each piece when grilling. According to Betty Stanley: "Each item has its own place and quickly pops in and out of the case, fitting securely when not in use. It is the perfect set for campers, boaters, RV-ers, and so on."

The five piece set comes with an aluminum case, which also allows each item to be stored individually and displayed and used with ease. The lifetime warranty, meanwhile, is available for both the sets. Purchases are completely risk free as the set is not just backed by a lifetime warranty, but also by a 100% money back guarantee. Betty Stanley explains: "If you are not 100% happy with your purchase, we will refund your money, no questions asked. There are literally no risks involved. But we are quite sure that you won't want to return this item."

The long, hot summer of 2018 has affected people all over the globe. While it has been somewhat too much for some, the majority of people have simply been able to enjoy the nice weather. There has been a significant increase in the number of barbecues and outdoor cookouts as well as a result, which has been to the benefit of companies like Jaci Global LLC. Because of the lifetime warranty that is included with every purchase for people who register for it, the set is expected to continue to be a firm favorite even when summer is over. People can simply bring it back out whenever they feel like grilling, which is something that can be done regardless of the season. Betty Stanley says: "We're looking forward to barbecuing even in the snow."
