

## Tea Infuser Bottle Launched By SAHE Products

*October 02, 2018*

October 02, 2018 - PRESSADVANTAGE -

SAHE Products has announced the launch of their tea infuser bottle and cold brew coffee maker. This is a travel bottle with removable stainless steel tea infuser strainer that allows people to enjoy their favorite drink at anytime and anywhere without worrying about the mess that preparing such a drink would usually create. They would like to point out that this portable sport glass water bottle is perfect for use in the home, gym, and while camping and traveling. More details can be found on the Amazon listing at <https://amzn.to/2wqhzj8>.

H. Misra from SAHE Products says: "We are proud to announce the launch of our tea infuser bottle. It has been designed to be durable and long-lasting, to be convenient for traveling, to have double protection against leakages, and to be insulated such that it remains cool to the touch even when filled with hot water. A full no questions asked money back guarantee is also provided so that customers are assured they'll get their money's worth."

This tea infuser bottle is suitable for travelers because it is provided with a neoprene sleeve, its size is 9 x 3.3 x 2.9 inches which is suitable for traveling bags, and it only weighs one pound. For those who travel by car, its size is such that it can easily fit into a car's cup holder. Furthermore, it can also fit in cup holders of outdoor chairs, exercise bikes, and treadmills, which means it is convenient to bring along in the gym and during camping.

The above has been proven to be true by actual users of the tea infuser bottle. For instance, one Amazon customer gave it a five-star rating and said: "This tea infuser is very good. My husband loves it. He loves to drink tea cold or hot. He carries it with him everywhere from work to home, and home to his Brazilian Jiu Jitsu classes...."

What is important in a tea infuser bottle that a person brings along while traveling is that it does not leak and cause an inconvenient mess. A leaking bottle would be certainly inconvenient while using it while traveling, camping or while doing exercises in the gym. SAHE Products would like to point out that they have taken this into account by providing it with double protection technology. It should also be durable and resist the usual bumps and shocks that it can be exposed to during travel.

This leakproof bottle is equipped with a strainer for those who prefer to use loose leaf tea or those who want to drink fruit infused water. The company points out that it has an enhanced double water design for durability. Also, it has been provided with extra insulation so that the outer wall won't be affected by the temperature of the liquid inside the bottle. With such a design, drinks will remain hot or cold for a long period of time.

The fact that the bottle is durable and does its function has been proven by consumers. One example is an Amazon customer who gave the product five stars and said: "This is an excellent product - the double insulated glass keeps the tea warm for hours and the easy screw off infuser cup holds the tea perfectly and easily screws off when I am done with it. The neoprene sleeve is a bonus. Keeps me confident that the glass won't break when I throw it in my backpack for the rest of the day. Customer service with this product is awesome - they reached out to me to find out if I liked the product and if they could do anything. I mentioned that the product came slightly damaged (looks like en route the box was dinged and so the lid had a scratch) - the bottle and lid were completely functional and had they not contacted me for feedback I would never had said a thing as it didn't make a bit of difference - but they promptly responded and sent me a replacement."

The above comment from a customer demonstrates the company's commitment to customer service. The fact that the bottle's lid got scratched while being transported is not their fault. Nevertheless, they had promptly replaced the product to ensure that the customer is completely satisfied.

SAHE Products is a 100% family-owned small business promoting premium kitchen, household products. Their line of products include silicone baking mats, tongs with stand, water bottles, wooden kitchen ladle sets, and bamboo cutting boards.
