

Northbrook Dentist Celebrates 33 Years Of Serving The Community

August 29, 2018

August 29, 2018 - PRESSADVANTAGE -

Dr. Steven Kacel of the Northbrook Dentist Office is proud to announce that he has been serving the dental needs of people in Northbrook, IL, and the surrounding area for 33 years. The dental office offers a wide range of general and cosmetic dental services. They would like to point out that they offer high quality dental procedures and also several financing options. Their goal has always been to provide the best dental services at an affordable price.

Dr. Kacel says, "If you are interested in our dental services, don't hesitate to get in contact with us today and get to know us on a personal level. We can provide a wide range of different cosmetic and general dental procedures. Many patients underestimate the effect that dental health can have on their long term overall health. It is of the utmost importance that you take care of aches and pains as they arise, rather than letting them grow into a more serious concern. I am very happy to be able to celebrate the fact that I have been offering my services in Northbrook and the surrounding areas for 33 years."

At the Northbrook Dentist Office, Steven Kacel DDS PC offers a wide range of services. When it comes to cosmetic dentistry, he provides services for: implants, porcelain dental crowns, white fillings, teeth whitening,

dental bonding, Zoom! teeth whitening, dental veneers, dental bridges, and Invisalign. When it comes to general dentistry, he offers services for: dentures, composite fillings, sealants, tooth extraction, root canal therapy, teeth cleaning, and periodontal scaling.

A specialty of the dental office is the porcelain dental veneer. Dental veneers can be used to fix teeth that have worn down, discolored, broken, or chipped. These are very thin, custom-made shells of porcelain that have been colored to look just like natural teeth. Basically, they are used to enhance the patient's smile. They can be used to change the shape, size or color of teeth.

Another specialty of the dental office in Northbrook is the dental implant. Dental implants can have various benefits, such as: improved appearance for people who have lost their teeth for whatever reason; improved speech because gaps can affect a person's ability to speak properly; improved comfort because gaps can be uncomfortable; better eating because the loss of a tooth can negatively affect a person's ability to eat naturally; improved self-esteem and confidence; and better oral health. Furthermore, dental implants are so durable that they are unlikely to be damaged by daily wear and tear.

Still another important specialty of the dental office is Invisalign. This is a type of brace offered to all types of patients. The advantages of Invisalign are the fact that: it really works in straightening teeth so as to have a better looking smile over time; it can boost a person's self-esteem because straight teeth result into a better overall appearance; it is comfortable to wear Invisalign clear braces; and these are safer than the typical metal braces.

The fact that Dr. Kacel offers high quality dental services is attested by the many positive reviews that have been given by his past patients. For instance, a patient who wants to remain anonymous says, "I can always trust that I am getting the best care available. Rosemary is great at her craft and Dr. Kacel is always professional. He seems to really enjoy dentistry, and it shows in his work. I highly recommend him for the most up-to-date care available." Another patient says, "Dr. Kacel is a fantastic, thorough dentist and I trust him implicitly. His staff is also friendly and always accommodating. Bonnie does an amazing job cleaning my teeth- they always sparkle when I leave and people always remark on how white they look." On Facebook, Kim L. says, "I enjoy getting my routine cleanings with the knowledgeable, friendly staff at Dr. Kacel's office. They have convenient hours and are always on time for their patients. Bonnie is very detailed with her job duties and explains each process of the cleaning."

Dr. Kacel has been regularly awarded for his excellent services. For example, he has received the Professional of the Year 2011, 2012, 2013 in Dentistry awards. He is a graduate of the Northwestern University Dental School. He has been given a lifetime membership on the Strathmore's Who's Who Worldwide list and he has been an Attending Dental Consultant for the NorthShore University Health System.
