

Microblading Calgary Salon Gets Rave Reviews

August 31, 2018

August 31, 2018 - PRESSADVANTAGE -

Brow Power, a permanent make-up clinic in Calgary, Alberta, Canada, is proud to announce that they have been receiving five-star reviews from satisfied customers. They specialize on offering eyebrow styling, particularly microblading, which has exploded in popularity for the last 10 years. The owner, who is a trained stylist, knows that microblading has been steadily gaining in popularity but nevertheless was pleasantly surprised with the number of five star reviews customers have been leaving on their Facebook page and on Google Maps.

Rola Haimour, owner and founder of Brow Power, says, "We are in the business of making people look beautiful. Nevertheless, you can imagine our surprise when we kept getting mostly five star reviews from our customers. We would like to thank our customers for their kind words and we would like to state that we are committed to providing the best when it comes to making your eyebrows look astonishing."

On Facebook, Brianna M. says, "Rola was fantastic. I have blonde hair and blue eyes and at first I was scared to go as dark as she recommended but she convinced me, and I am very glad she did. Day 2 was terrifying because to me they looked black but by day 4 they faded to a nice Ashe blonde. Rola was pleasant and informative. Very excited to go back for my touch up in the near future. Thanks Rola."

On Google Maps, Lamese H. says, "Rola is so talented and sweet. She is a perfectionist which is what you need for brows. She is extremely professional and friendly. Thank you for making me feel comfortable."

Microblading is a cosmetic style of tattooing that is applied using very fine needles and a hand tool applicator. The resulting eyebrow looks very much like natural eyebrow hair that people who see it won't realize that it is not really the usual eyebrow. This makes it distinctive from the usual pencil on eyebrows, which is easily seen to be unnatural, particularly when it is not done by a professional make-up artist. More and more people have been moving away from the use of eyebrow pencils, permanent cosmetic eyebrow tattoos, and cosmetic make up because microblading has the advantage of being able to create a soft, natural illusion on the eyebrows that is not possible with other methods.

One primary reason customers have been leaving five star reviews about the service is that they don't have to worry about their eyebrows looking unnatural, especially when brow microblading is performed by a professional. It has been observed that majority of people won't be able to detect that the eyebrows aren't "real". Even a person standing right in front will need a magnifying glass to determine which of the eyebrow hairs are the natural ones and which were applied through microblading.

Furthermore, in the hands of a professional microblading expert, customers would be able to enjoy genuinely color matched eyebrows that would not have been possible without using this technique. This is because instead of painting the new eyebrows with the same ink across the board, experts at the microblading Calgary salon can mix and match different colors, different pigments, and different shades for each individual artificial "hair" that is applied on the eyebrow to be able to perfectly match the natural eyebrow hair.

Meanwhile, that Rola is an expert in microblading is attested by past customers. For example, Shelly R. says on Google Maps, "I felt confident and comfortable with Rola from the initial questions before booking my appointment to my first microblading session. Rola is very well educated in the whole process, and was able to answer any questions or concerns I had. She even educated me on the different types of needles and inks that are used. In addition, I loved how she really took the time to find the perfect shape most suitable for my face. I had just finished my touchup and I'm loving my brows even more."

Rola and her staff at Brow Power have been providing microblading services for years now. They also have cosmetic tattoo removal services to help eliminate mistakes made in the past while offering customers new solutions that will make their eyebrows look natural and beautiful at the same time. And to ensure that the best results are achieved, experts at Brow Power also provide customers with aftercare guidelines that need to be followed to the letter to ensure that the eyebrows will heal properly after the process and avoid any redness or puffiness that people would certainly not want on their eyebrows.

Those interested in getting more information about Brow Power and microblading or in booking an appointment may visit the salon's website or Facebook page at <https://www.facebook.com/rolabrowandlash/>.
