

Wedding Open House To Be Held At Hyatt Place Niagara Falls

September 11, 2018

September 11, 2018 - PRESSADVANTAGE -

Hyatt Place Niagara Falls in New York has announced an upcoming Wedding Open House. The event is set to take place on Sunday, September 30th, 2018, and will begin at 1:00 p.m. The open house is designed to provide future brides and grooms with a look at the new facility and help them to determine if the Hyatt Place is the right spot for their upcoming wedding. The hotel offers a great landscape view of the Niagara Falls State Park and is quickly becoming a popular wedding venue as availability is rapidly getting booked up.

Stacie McDonald, General Manager at Hyatt Place Niagara Falls, states, "The brand-new Hyatt Place in Niagara Falls is the newest and hottest wedding venue in the region. Join us for a day of bliss as you prepare for your special day. Come and see our beautiful views, let us pamper you with delicious foods and have a wonderful day just planning your upcoming wedding in our breathtaking location."

McDonald says that the open house will include a showcase of the versatility of the event space, so future brides can envision what it will look like on their wedding day. Mimosa punch and appetizers prepared by the Executive Chef from the Hyatt Place Niagara Falls will be available for everyone who attends. Up to three guests can come with each future bride or groom.

"Everyone that attends the event will automatically be entered into a drawing to win a free night's stay at our brand-new hotel," says McDonald. "Imagine a free night that you can use for a girls' night out before your wedding, or even use it for your honeymoon." She states that those who are interested in learning more can contact Courtney Ennis for more information or to RSVP at cennis@hamistergroup.com or 716-839-4000.

The Hyatt Place is the newest hotel in Niagara Falls and features 128 spacious guest rooms for brides and their attending guests to enjoy. Blocks of rooms are available for events. The hotel is located just a few steps away from Niagara Falls State Park and provides a stunning backdrop for wedding pictures. The hotel's ballroom can accommodate up to 150 guests along with a DJ or local band, so guests can dance the night away. The ballroom also features striking views of Niagara Falls, Canada. During the warmer months, guests can enjoy direct, private access to a newly furnished rooftop patio. During the colder months, the Falls can provide a breathtaking view and the hotel is easily accessible from virtually anywhere in the United States or Canada. McDonald says that any bride who has always dreamed of having her wedding overlooking the grand Niagara Falls should contact the hotel today to learn more or to reserve a spot for the open house.

McDonald states that the event and patio space can also be set up for smaller parties or to host both the ceremony and reception for brides who are planning smaller wedding parties. Stacie McDonald says, "Enjoy exceptional food from our extensive menu, prepared by our talented chefs and put your mind at ease during your special day, as you are taken care of by our first-class staff and your very own on-site coordinator." McDonald says that brides who are still looking for the perfect venue for their upcoming wedding would not want to miss the open house event as the hotel offers everything a wedding party could need to set up the most special day of their lives. View Hyatt Place Niagara Falls's Facebook page to learn more and see stunning images of this beautiful wedding venue.

McDonald also says that after the party, the newly married couple and their guests can head to the hotel Coffee to Cocktails Bar and continue to celebrate the most special day of their lives. She says that she hopes that future brides and grooms will contact them for more information on the open house or with any questions on how the staff can help to create that special day. McDonald states that the open house has plenty of space available for guests to book, but urges those who are planning a wedding soon to contact the hotel and book their event now as dates will fill up quickly.

The hotel is located at 310 Rainbow Blvd, Niagara Falls, NY 14303, and can be viewed on Google Maps for those who would like more information on the travel distance from specific locations.
