

# Best Broken Screw Extractor Tool Introduced In Online Store

*January 07, 2019*

January 07, 2019 - PRESSADVANTAGE -

Cheap 3D Printer Cost has announced that it has added to its online store what is considered to be the best broken screw extractor tool. This broken screw extractor is made up of a set of five core drill bits for use in extracting damaged screw bolts. More information about this tool set can be found at [https://www.youtube.com/channel/UCXWgGvQPgtemOdMx4lv6yyQ?view\\_as=subscriber](https://www.youtube.com/channel/UCXWgGvQPgtemOdMx4lv6yyQ?view_as=subscriber).

Roy, a spokesperson for Cheap 3D Printer Cost says, "We are proud to announce the availability at our online store of a Jigong broken screw extractor, which is a 5-piece set of tools for removing damaged screw bolts or broken pipes. This tool set is considered the best in its category. That's why we have decided to introduce this product in our online store."

Roy explains that this tool set is made of high speed steel and is made up of five pieces, which are 85 mm, 75 mm, 68 mm, 58 mm, and 50 mm in length, which have diameters of 9 mm, 7 mm, 5 mm, 4 mm, and 2 mm, respectively. Roy adds that customers could take advantage of the fast delivery and 100 percent money back guarantee. He points out that the company is 100 percent USA owned and operated.

It should also be pointed out that aside from this tool set for extracting broken screws, there is a wide range of products that can be found at the Cheap 3D Printer Cost online store. For instance, the store has recently added the Small Woodworking Lathe Collection, which is made up of a 6 in 1 Lathe Machine Tool Kit for Drilling, Sanding, Turning, Milling and Sawing Plastic, Metal or Wood; a 60W 12000 RPM Mini Metal Rotating Lathe Model Making Tool Milling Machine; a CNC Lathe Machine with Water Cooling Spindle for 3-axis metal engraving and wood routing for full assembly; a 5-axis CNC milling machine; and a Wood Lathe CNC Machine for engraving, drilling and milling.

Also available at the Cheap 3D Printer Cost is the Useful & Fun Gadgets Collection. Products in this collection include a Mini Wifi FPV RC Drone with Camera Real Time Transmission with LED Light and creative iPhone cases; an Ambarella A7 Car DVD Dash Camera with GPS Logger G-sensor; Cat Eye Sunglasses for Women; a Funny Ceramic Mug with a Middle Finger Gesture Inside the Cup for Mixing Coffee

and Milk, which has turned out to be a favorite among many customers; a DVD R310 Dual Lens Dash Cam with Infrared Night Vision; IPX7 Professional Waterproof Bluetooth Wireless Headphones; and a Foldable Pocket Drone Selfie RC Drone with Remote Control and 720P WiFi Camera.

The Useful & Fun Gadgets Collection is among the five new collections that have been recently added to the Cheap 3D Printer Cost online store. The other new collections are the Small Woodworking Lathe collection, Night Vision Collection, Cheap 3D Printer Cost collection, and Cheap Laser Engraver Cost collection.

The Cheap Laser Engraver Cost Collection is composed of affordable laser engravers. One example of these laser engravers is the Woliike CNC machine Model 3018 10W USB Desktop Metal Stone Wood CNC Laser Engraver. It has a 10W laser and it is made from aluminum alloy and acrylic. There is no limit to the size of the object for engraving. Carving materials can be bamboo, wood, plastics, leather, and similar materials.

The Small Woodworking Lathe Collection is made up of lathe machines for wood, such as a CNC Lathe Machine with Water Cooling Spindle for 3-axis metal engraving and wood routing for full assembly; a 60W 12000 RPM Mini Metal Rotating Lathe Model Making Tool Milling Machine; a Wood Lathe CNC Machine for engraving, drilling and milling; a 6 in 1 Lathe Machine Tool Kit for Drilling, Sanding, Turning, Milling and Sawing Plastic, Metal or Wood; and a 5-axis CNC milling machine.

Roy points out that orders will usually arrive within 10 to 12 business days for those who live in the US, UK, Canada, and Australia. It may take longer in other countries because they would have different customs processing speeds and it would also depend on the location of the nearest warehouse in relation to that country. And as mentioned above, Cheap 3D Printer Cost will replace a faulty or damaged item at no additional cost to the customer but customers will have to inform the online store within 48 hours after getting the item.
