In the online shopping world, it can be challenging finding products that work as described and that live up to their acclaimed features. Many sellers on Amazon.com are not honest and once the purchase is made, customers are finding that the product delivered is of low quality.

One Amazon.com customer, in particular, had bought oven mitts which ended up being returned, the customer finally found Sili-Mitts silicone oven mitts by Frux Home and Yard and claimed that they worked as advertised and fit perfectly.

(Amazon.com, September 4th) Frux Home and Yard receives a 5-star review from a satisfied customer. ?After returning another product, I can happily report that this one works as advertised. I bake bread twice weekly at 550/F, and I can hold a heavy cast iron pan at that temperature without feeling any heat. Great technology. I also dump charcoal from my chimney starter that must be closer to 800 degrees with no perceived heat. These work. I have a smaller hand, and the fit is perfect.?

FruX Home and Yard advertise their Sili-Mitts heat-resistant oven mitts as high-quality gloves that can

withstand heat up to 482 degrees fahrenheit/250 degrees Celsius, and they are claimed to be made with a one-size fit all ambidextrous friendly design that allows for comfortability on any hand.

The Sili-Mitts feature an extra long length that makes them stand out from other brands, the outer layer of the oven gloves are also made with a waterproof silicone layer to keep buyers as safe as possible from steam burns and hot water burns. To make clean up easy, the silicone effortlessly washes clean with warm water and soap.

By reading Frux Home and Yards Amazon.com listing, shoppers can see for themselves all the features the oven mitts offer. Unlike some sellers on Amazon, Frux Home and Yard is honest with their products description and they back every purchase with a 100% satisfaction guarantee. All orders over \$50.00 can receive free shipping from Frux Home and Yard, and Amazon Prime members are eligible for free 2-day shipping.
