

## **Stat! Labeled The Best Pet Wound And Skin Care By Online Reviewers**

*June 28, 2015*

June 28, 2015 - PRESSADVANTAGE -

Stat!, an animal wound treatment spray based in Salinas in CA, has recently been awarded the best pet wound and skin care brand from a variety of their peer websites. Due to this, Stat! has created a promotional sale through its Amazon store. Touting an already favorable reception to the newly launched product, the sale is bound to increase its footprint with its expanding fan base. With a price cut of 25% to its original listing, Stat! Pet Wound & Skin Care has situated itself squarely among the leading brands of the category.

With thousands of products available online and in retail stores to treat pet wounds and skin conditions, Stat! has made steady inroads in the market by focusing on non-invasive care. The company has pivoted around the notion of eliminating harsh chemicals that are found in many wound care products. Instead, Stat! has utilized the properties of Enhanced Hydrogel to encourage natural healing while restricting microbial infections without using alcohol, antibiotics, bleach or steroids. Animal skin care products that contain steroids are not advised for use on pregnant animals, as they might induce pre-mature labor. The exclusion of steroids in Stat! has the supplementary benefit of it being safe for pregnant pets, as is confirmed by one customer review, "I used Stat! on one of our pregnant mare's udders that developed a mysterious open wound. Not only did it start healing quickly, but it really calmed the area around it and kept the flies away."

The technology applied when formulating Stat! was to promote the healing capabilities of an animal with little interference from outside. A Stat! customer with the alias of misty103 has expressed her satisfaction with the spray on her blog on Hubpages, "The product worked perfectly there was no dis-colorization of his fur, the wound healed quickly, and there was no infection. The spray was easy to use and it did not sting my dog at all."

The highlighting feature of the spray provides a nurturing environment for tissue regeneration, supplemented by other ingredients in the spray that contribute to the overall healing process. The Aloe vera present in the spray promotes re-growth of fur while eucalyptus fragrance repels insects from the wound. Comprehensive information about the development of Stat!, its features, and customer reviews, can be accessed from their official website, <http://www.statspray.com/>

In addition to the special offer price, the company is offering priority free shipping to customers in the U.S. The spray can be purchase from their Amazon store at, [http://www.amazon.com/gp/product/B00SDLNGQS/ref=s9\\_psimh\\_gw\\_p199\\_d0\\_i1?pf\\_rd\\_m=ATVPDKIKX0DER&pf\\_rd\\_s=desktop-1&pf\\_rd\\_r=14FVHM1739QVGWYQ1MR8&pf\\_rd\\_t=36701&pf\\_rd\\_p=2079475242&pf\\_rd\\_i=desktop](http://www.amazon.com/gp/product/B00SDLNGQS/ref=s9_psimh_gw_p199_d0_i1?pf_rd_m=ATVPDKIKX0DER&pf_rd_s=desktop-1&pf_rd_r=14FVHM1739QVGWYQ1MR8&pf_rd_t=36701&pf_rd_p=2079475242&pf_rd_i=desktop)
