

Best Mini Bike Available At Online Store At Low Cost

December 03, 2018

December 03, 2018 - PRESSADVANTAGE -

Outdoor Store dot tv, a popular online store, is excited to announce that they have added what they believe is the best mini bike on the market to their offerings. The gas-powered miniature motorcycle, dubbed the "Mini Chopper", comes painted in orange, is available at low cost.

"The MotoTec 49cc Gas Mini Chopper is the ultimate kid ride," says Roy from Outdoor Store dot tv. "We're so excited to offer this bike before the holidays, because it'll be a hit for kids to ride around on, whether in the driveway, on trails with the family, or in a parking lot supervised by their parents. It's very versatile."

The mini bike seat stands at 15 inches from the ground, making it accessible for kids 13 years old and up. It is built on a ridged steel frame and sports a 49cc 2-Stroke, air cooled, EPA approved engine. It has a pull-start engine and holds 1.25 liters of gas in its tank. The bike also comes with standard rear disc brakes and rides on 14-inch front and 11-inch rear street tires. The handlebars also sit a little higher than standard mini bikes, giving it more of a "Harley-Davidson" style feel when riding.

According to Roy of Outdoor Store dot tv, the Mini Chopper has already been flying off the virtual shelves. "This is such a cool looking bike, I'm thinking of buying one of my own so my little ones can use it," he said. "It's such a versatile bike that kids will love riding it on all kinds of surfaces. It's the perfect gift for the adventurous kids in your life. If I was a kid again, I would love one of these bikes."

Other MotoTec products are also offered in the Outdoor Store dot tv store. The MotoTec brand also has a "Pocket Bike", designed like a sleek street bike, with a 40cc motor. These bikes come in both red and pink colors. The online store also offers the MotoTec SandMan Go Kart that is built for off-roading for kids. The Mini Chopper comes in a pink color as well.

Outdoor Store dot tv not only offers fun toys like the Mini Chopper, but they have expanded their inventory in the past few years to cover a variety of products. "Initially, we started out by offering 3D printers and parts for them," Roy says. "From filament material to full portable 3D printers, we offer anything you need for your 3D printing needs. Meanwhile, expanding our catalog means our customers can come to us as a one-stop shop

for just about everything, any time of the year."

Recent additions to the online store's offerings include: useful and fun gadgets such as phone covers, night vision cameras and binoculars, thermometers, and water jets; woodworking machines such as lathes engraving, drilling, and milling; laser engravers; pedal-powered toys for kids; and many more products for home or business. Roy adds that there are numerous products for both kids and adults looking for holiday gift ideas.

"Like we say on our site, we've been offering quality products since 1997," Roy says. "Because we have been selling our merchandise online for a long time, we know how to streamline the experience for our customers to make shopping easy, fast, and most of all secure. We offer free shipping for orders in the continental U.S., but we also ship worldwide. All of our products come with a 30-day money back guarantee, so if you don't like it you can always send it back for a refund. Keep in mind, if you're ordering from out of the country, and a product is damaged or defective, we recommend that you get hold of us within 48 hours so we can get it replaced as soon as possible."

Roy recommends that customers follow them on their social media channels in order to see the latest offerings on the site. The website is represented on Facebook, Instagram, Pinterest, Twitter, and YouTube. The company also has an email list with special offers. "We're adding new products all the time," Roy says. "Keeping up with us on social media is one of the best ways to see what kind of new, cool stuff we've got in stock. You can also leave us a comment or review on how much you're enjoying our products."

For more information on the best mini bike, to ask questions, or to peruse other products on the popular online store, those interested are invited to visit the website at <https://outdoorstore.tv/>.
