Best Kids Car At Low Cost Available Online

November 28, 2018

November 28, 2018 - PRESSADVANTAGE -
Outdoor Store dot tv, an online store popular with shoppers, is excited to announce that they have added what they believe is the best battery-powered kids' UTV for sale in any store. The utility task vehicle from Mini Moto is available at low cost and comes painted in white with red trim and can be found at https://outdoorstore.tv/collections/kids-battery-gas-cars.

"The Mini Moto 12v 4x4 UTV will make your kid the most popular kid in the neighborhood," says Roy from Outdoor Store dot tv. "This is the ultimate cruising vehicle that seats two kids 3 to 6 years of age. It can be driven over trails, or when just taking a little ride down the street with a friend playing some music. There are a ton of cool features that come with it that both the little kids and big kids can enjoy."

The 4x4 UTV comes equipped with double doors, EVA tires, leather seats, and working front and tail lights. It is powered by two 12-volt AMP rechargeable batteries (charger included) and can even be driven by remote control. Roy says that what sets this particular vehicle apart from others on the market are the MP3 Port, SD card, and Bluetooth capabilities that come with it. It even has a rear trunk, not typically found in these types of kids' toys.

Roy of Outdoor Store dot tv says this is one of the faster selling products for kids on the marketplace. "This UTV will make your little ones really feel like they're driving a big kid car," he said. "With all of the specs and tech surprises on this vehicle, both kids and adults will love it as a holiday gift this coming season."

The battery-powered UTV is not the only kids' vehicle on offer at the Outdoor Store dot tv store. The online store also sells gas-powered "Pocket Bikes", designed like a sleek street bike, as well as gas-powered "Mini Choppers" to be ridden like Harley-Davidson motorcycles. Go karts, pedal-powered cars, and even electric skateboards are available for purchase for those looking for holiday gift ideas for the kids in their lives. "From kids ages 3 and up, we have fun toy vehicles for any age," Roy says.

A plethora of new products have been added to Outdoor Store dot tv in the past few years, a far cry from their initial offerings of 3D printers and printer parts. "We started out selling fully assembled 3D printers, filament,

and parts, and to this day we still sell just about everything needed for 3D printers at great prices. Now that we have a wider selection of products for sale, we want to be your one-stop shop for cool, top-of-the-line stuff at competitive prices."

Recent additions to the online store's offerings include: night vision binoculars, cameras, and telescopes; portable sewing machines; mini home air conditioners; fun gifts like sunglasses and ceramic mugs; and other useful products to use around the house or for business. Roy says that they are adding products to their store all the time, and shoppers will find many ideas gifts for the holidays, birthday, or any event.

"We've been offering quality products on the web since 1997," Roy says. "Our customers have left us rave reviews about our products and our service because our goal is to make sure people can shop quickly, safely, and securely. Shipping is absolutely free for orders in the continental U.S., and we're happy to ship our products worldwide as well. We offer a 30-day money back guarantee, so if you don't like something, you can send it back to us for a refund. If we send you a product that is defective or damaged, please let us know within 48 hours so we can get it replaced for you as soon as we can."

For customers to get the latest updates from the store, Roy recommends that customers follow them on their Facebook, Instagram, Pinterest, Twitter, and YouTube social media platforms. Customers can also sign up for the store's email list to get special offers and updated products. "Our social media accounts are constantly being updated as the site is updated, and we recommend that people follow us for all the latest and greatest updates. And we also want to hear from our customers too. If you like our products leave us a review on the site or send us a comment on social media. We'd love to hear from you."

Those who would like more information on the best battery kids car, or to check out the other products on the Outdoor Store dot tv marketplace, can visit their website at https://outdoorstore.tv/. Roy Wingate also offers Business Marketing & Consulting at https://roywingatebusinessconsultants.com/
