

## **EXOUS Bodygear's EX-701 Fast Becoming Best Knee Support On Amazon UK**

*June 23, 2015*

June 23, 2015 - PRESSADVANTAGE -

EXOUS Bodygear, a sport, and outdoor fitness brand who recently launched their EX-701 Performance knee support in the UK have quickly established one of the top consumer ratings on amazon.co.uk. The amazon rating system ranks the quality of products using a star rating: 5 being the best and 1 being the poorest. Consumers can then make informed choices on buying a quality product.

Mr S Sinclair who recently purchased the knee support had the following to say "Over a 3-week period my knee began to deteriorate....An X-Ray confirmed this...the knee support has made it so I don't take medication & I'm back to work. 5 stars." Another consumer Mr E A Wallace also said the following "At last a knee support that does what it's supposed to and, most importantly, stays put."

The reviews that the EX-701 is gaining rank the product with a 4.6 out 5 score on the rating system on amazon.co.uk. This score rates it as the best knee support among one or two others on amazon. The total number of 4 and 5 star reviews give it a 92% positive feedback score in total.

The Brand manager from EXOUS Bodygear had the following to say: "The reviews speak for themselves, it's

always hard work differentiating and educating consumer's on a new product in a mature market, but as you can see consumer's are feeding back the specific features that we believe make the EX-701 the best knee support for the money."

Time will tell if the product continues to rate highly, from the evidence so far it looks in good shape to establish itself as a solid quality product for the consumer to buy. Currently selling at the launch price of under £15 gives a tick in the box for good value. There are many knee supports and braces available to purchase online. Retailers such as amazon have made it somewhat easier to find how good a product could be before you purchase it through reading consumer feedback which can only be a good thing.
