

Hot Yoga Towel Earns Almost 700 Positive Reviews

October 02, 2018

October 02, 2018 - PRESSADVANTAGE -

Yoga Jaci, based in Cape Coral, FL, is proud to announce that their yoga towels have already received 670 customer reviews, which are mostly 5 star reviews, resulting into an overall rating of 4.7 out of 5 stars. The Yoga Jaci hot yoga towels are available in three options. There is the mat towel; hand towel; and the combo towels, which is made up of a mat towel and a hand towel.

Betty A. Stanley, a spokesperson for Yoga Jaci, says, "We are proud to have received so many positive reviews with most of them being five stars. This is a testament to the quality of our hot yoga towel and that it really works as specified."

For instance, one Amazon customer who gave the yoga towel five stars, says, "I bought the full-size, sea foam green color (and a blue one for my friend) & just used mine for the first time. [...] No more slipping and sliding during hot yoga! The towel stayed put on my mat, and neither my hands nor feet slipped. This was the perfect size, covering my entire mat with a tiny bit of excess fabric on the top and bottom. I did not pre-wet the towel, though I sweat on it throughout class. Definitely going to invest in more of these! I can't speak yet to their longevity, but the initial quality seemed good. So far I'm loving this more than my Gaiam towel or the regular towels I've been using in between."

Another Amazon customer who gave a five star rating for the yoga towels says, "This is my first yoga mat towel so I don't have anything else to reference to. I did do a lot of research before purchasing anything because I wanted a towel where I would not skid or slip easily. This towel gets the job done for the most part. While it's still dry I do have to be careful not to slip in certain poses but it's not like I'm flying off the mat. Traction also increases when the yoga is wet either from sweat or using a spray bottle. I particularly liked that the yoga mat towel came with a hand towel and that is actually why I purchased this particular brand. So far I am a happy customer, no complaints. I definitively would buy again."

Betty points out that one reason why the Yoga Jaci yoga towel has become so popular is because it is made of 100 percent premium microfiber towel. This is what makes it super soft and super absorbent. This means that the towel easily soaks up sweat and it also offers a stable and comfortable surface for performing yoga exercises. There is no chance for the towel bunching up while making yoga movements nor the towel slipping on the damp floor. Meanwhile, the yoga hand towel is convenient for wiping perspiration while doing the yoga exercises.

The towels are available in five colors and two uniquely designed imprint yoga mat towels. They have reinforced edge stitching to provide durability and longevity. To ensure that the towels will not have any negative effects on the health of the user, they are imprinted with non-toxic, water based inks that are fade resistant. The mat towel is 72 inches long and 24 inches wide. The hand towel is 24 inches long and 15 inches wide.

To ensure that the yoga towel won't slip, Betty explains, "By spritzing your yoga mat with a little water before placing Yoga Jaci's Yoga Mat Towel, you can increase its' grip so your mat towel won't slip." Because it does not slip, there is no bunching and movement that could interfere with the users' concentration while doing the yoga exercises. And because the users have more confidence in the stability of the towel, they are able to accomplish more difficult positions and perform more advanced techniques.

Betty points out that, "Yoga Jaci's Full Size Mat Towel is lightweight. It easily rolls up with mat when you're headed to working out at the yoga studio or gym. When rolled tightly, it's compact diameter of 2.5" is so small you can toss it in your overnight bag or suitcase. You'll never want to leave home without it."

And finally, because the yoga mat towels are super absorbent, they provide a hygienic barrier between the user and the yoga mat. The result is that users can perform their workouts without being bothered by a sticky and moist mat. Also, because the yoga mat is not damp, this prolongs its life.

Those interested in knowing more about the yoga towels can visit the company website.
