

Hoot's Naturals Introduces Their Latest Beard Moisturizer To The Market

June 26, 2015

June 26, 2015 - PRESSADVANTAGE -

Hoot's Naturals, from Spring Hill, Tennessee, is a company that aims to create personal care products designed for men. The company recently announced the introduction of its product: Hoot's Naturals Beard Balm, a 100% organic and ethically sourced beard moisturizer that the company is currently selling on Amazon.com.

Hoot's Naturals Beard Balm caters to the growing number of men who sport beards. On the company's website, the company is clear with their message: "We take beards seriously," a message that seems to be heard perfectly by over 400 (and counting) customers who had purchased the item on Amazon.

The beard moisturizer is made from 100% organic ingredients. All-natural and safe, Hoot's Naturals Beard Balm is composed of beeswax, hempseed oil, rosemary extract, grape seed oils, jojoba oil, argan, and Murumuru butter. Vitamin E is added to keep beards moisturized and soft, as well as to provide volume and to give beards a fuller texture. These organic ingredients ensure safety, without any harmful chemicals that may cause allergic reactions to its user.

When used daily, Hoot's Naturals Beard Balm will help tame even the most unwieldy beard. In addition, a beard owner's common beard dilemmas will be solved. The product guarantees softer and moisturized beards when used regularly.

Currently, Hoot's Naturals Beard Balm holds a 4.8 out of 5 stars rating on Amazon.com. The reviews continue to come in. Amazon reviewer Bleaum purchased Hoot's Naturals Beard Balm for her boyfriend, and has nothing but praise for the product. Together, they left a 5-star rating on the product's page. It read:

"I had the opportunity to order this at a discount in exchange for my honest and unbiased review. Now? I don't have facial hair, nor do I want any since I'm proud to be the woman that I am. But my heavily bearded, wild-haired boyfriend was in desperate need of a man makeover. So I gave it to him and this is what HE had to say.

'This being my first time using a beard balm (actually my first time hearing of such a thing), I didn't quite know what to expect. I've never been much of a fanatical groomer and have always done little more than wash my beard. However, I've come to enjoy the results of the balm as it leaves my beard feeling soft. I've received many compliments on the clean look of my beard since using it. I highly recommend this product to my bearded brethren. The natural ingredients used to make the balm are a plus too.'"

The company continues to strive for excellence by creating high-quality personal care products for men. With its beard moisturizer as a great first step, it's clear that Hoot's Naturals Beard Balm is a must-have for every bearded man regardless of beard length and beard shape.
