

Castle Hill Massage Center Now Offering Mobile Treatments

June 28, 2015

June 28, 2015 - PRESSADVANTAGE -

Therapy One Massage, a massage salon in Kellyville, NSW, Australia, is happy to announce that they are now offering a mobile massage service to their customers. At present, the service is available to the suburb of Castle Hill. As can be seen on <http://www.sydneymassage.com.au/>, the company offers full massage services designed to help heal and relax the body and mind. By going mobile, they hope that more people will be able to enjoy the fantastic benefits of massage therapy.

"We offer top class, professional massage services in the Hills area, mainly the Castle Hill and Rouse Hill suburbs", says Tony Wilson from Therapy One Massage. "All our therapists are fully qualified and they will come to our customers' home so that they don't have the inconvenience of having to find time in their already busy schedule to visit a therapist. We hope that more people will be able to achieve greater health this way."

Therapy One Massage understands that the stresses of life can often leave people feeling tired and under pressure. People often return from work tensed up, but then no longer have the energy to leave home again to visit a massage therapist. Additionally, the daily pressures and responsibilities mean that people simply do not have the time to go to a massage salon. Furthermore, many people become so relaxed during a massage

that it would not be safe for them to drive home again afterwards.

Therapy One Massage has qualified therapists who can deliver massages for all types of conditions. Pregnant women, for instance, have noticed a lot of benefits from having a massage. It is particularly nice for their legs and back, which are often painful in pregnant women.

Because the business offers a mobile service, they can come to any location. Many of their customers are in hotels or even at work. It is also not uncommon for someone to book two therapists and enjoy a relaxing massage with a friend. The company's therapists can come to any location and they have a wealth of information in terms of how to maintain safety during massage, the types of massages to offer, and more.

Therapy One Massage has been in business for some time, and they have received numerous positive reviews during this period. "I am moving a lot more freely than I have in years, and no longer have that "tight" feeling across my neck and shoulders", says J.Light, Beaumont Hills, "The pain relief is great. I also find the fact that you come to my home/office of great benefit, as it makes it a lot easier for me to fit the massages into my sometimes hectic schedule.

For more information or to find out what the most requested treatments are, please contact the business as soon as possible.
