Quantum Marketing System, based in Eden Prairie, MN, has announced the upcoming SOLI Solution advisor training tutorial and webinar. The webinar will be held on October 17 at 2:00pm CDT. Jeffrey A. Thompson, developer of Quantum Marketing System, says, "We urge people to learn more about the technology that is disrupting the guaranteed universal life market. The Structured Optimized Life Insurance or SOLI is a proprietary technology that allows clients to save as much as 70 percent in their premiums compared to the lowest cost guaranteed universal life insurance that is available on the market."

Jeffrey points out that because of the significant pricing advantage, an insurance agency using The SOLI Solution will likely experience its production numbers increase dramatically. He says, "We will initially be making the program available to 300 agents nationwide. Jeffrey urges you to attend the webinar in order to have an opportunity to be among the first 300 agents in the industry to offer The SOLI Solution to clients." For instance, A.K. in California says, "Having tried everything from purchased leads and radio to direct mail with mixed results. I was looking for a marketing solution that produced consistent results without all the risk. [...] The results have been phenomenal and my sales and revenue have grown by over 500% in the last 24 months, without the upfront cost and risk associated with other marketing. My business is on pace to continue the growth trend that began 24 months ago. I would highly recommend taking advantage of working with Jeff and his Quantum Marketing System as a core marketing strategy."
