

Best Naturopath Toronto Clinic Award For Dr. Amauri Wellness Centre

October 22, 2018

October 22, 2018 -

Dr. Amauri Wellness Centre is proud to announce it was recently chosen by ThreeBestRated.ca (TBR) as one of the top three best naturopathic clinics in Toronto. Established in 2007 by Dr. Amauri Caversan, B.Sc., N.D., Dr. Amauri Wellness Centre specializes in naturopathic medicine backed by evidence-based science. It was chosen as one of the top three best naturopath Toronto clinics after a comprehensive inspection was completed by TBR, who rated the clinic especially high in nine key areas.

ThreeBestRated.ca was created to focus on finding the top three local businesses, professions, restaurants, and health care providers in any city. After an extensive investigation, they display only businesses that are verified. Their website is updated on a regular basis for quality and the latest business information. TBR is an unbiased, free service without membership fees or payment allowed from businesses.

TBR placed the Dr. Amauri Wellness Centre in the top three after using a proprietary 50-point inspection, which included the examination of their reputation, reviews, history, complaints, ratings, nearness,

satisfaction, trust, cost, overall excellence and reputation. TBR highlighted nine categories in which the Wellness Centre excelled - business hours, business images, complete info, experience, exact services, review analysis, service diversification, social media, and website standard.

Dr. Amauri Caversan believes his customized and personal approach to healing and achieving optimal health and wellness for his patients is the reason his clinic was chosen as one of the top naturopathic clinics in Toronto. "It was my own personal experience as a patient of naturopathic medicine that prompted my desire to learn how to help others through the study and practice of integrative natural medicine," says Dr. Amauri. "I help people because I want to see them healthy and happy."

Naturopathy is a distinct form of primary health care that combines modern scientific knowledge with traditional and natural forms of medicine. The philosophy of naturopathic medicine views the individual's total lifestyle as a key factor in increasing overall health and well-being. Based on prevention and the root cause of illness, naturopathy also addresses emotional aspects so healing can occur at a deeper level and boost the body's natural ability to heal itself.

Similar to his medical counterparts, Dr. Amauri is a general practitioner trained in the clinical and laboratory diagnosis of disease. As a naturopathic doctor, Dr. Amauri is also trained to identify and treat the underlying causes of disease rather than just focus on the symptoms. He views the patient as a whole person, taking into consideration when diagnosing and developing a treatment plan the physical, mental, emotional, and spiritual factors.

Dr. Amauri integrates up-to-date treatments and cutting-edge knowledge into his naturopathic practice. "I owe it to my patients to remain current on the latest health research and clinical education," says Dr. Amauri. He specializes in acupuncture, cold laser therapy, detoxification, lab testing, IV therapy, pain treatment, shockwave therapy, and weight loss. "By combining diet, exercise and nutritional supplements with other treatments, I can target and treat cellular malfunction."

Located in the heart of Yorkville, the Dr. Amauri Wellness Centre provides a range of services including pain treatment, nutritional IV therapy, wellness services, and transformative health programs. A specialist in treating the debilitating effects associated with arthritis, lower back pain, knee pain, heel pain, tennis elbow, tendonitis, and Carpal Tunnel Syndrome, Dr. Amauri addresses the root cause of these imbalances through a unique variety and combination of natural treatments. According to Dr. Amauri, "When I am able to alter the course of a person's health away from a protracted period of pain and concomitant disability, I feel rewarded as a practitioner of naturopathic medicine."

Dr. Amauri Wellness Centre also provides anti-aging and environmental and chronic disease prevention services and programs. Their website blog is regularly updated with topics related to naturopathic medicine

and how it helps with overall health and wellness.

Dr. Amauri Wellness Centre has a team of wellness practitioners, who offer areas of expertise to enhance the treatments of the clinic's patients. The team includes a nurse practitioner, personal trainer, holistic nutritionist, and osteopathic manual practitioner. Meanwhile, Dr. Amauri has added to his team of wellness practitioners as can be seen on PressAdvantage.com.

Dr. Amauri holds a Bachelor of Science degree and is a graduate of the Canadian College of Naturopathic Medicine (CCNM). He is regularly invited to share his expertise at integrative medicine seminars. Licensed to practice naturopathic medicine and parenteral (IV) therapy in Ontario, Dr. Amauri is a Board Certified Naturopathic Doctor (CNNMC). He is a member of the Ontario Association of Naturopathic Doctors and the Canadian Association of Naturopathic Doctors.
