

Exterminator In Indianapolis Offers Tips on Pest Prevention

October 16, 2018

October 16, 2018 - PRESSADVANTAGE -

Perseverance Pest Control, a pest control company based in Fishers, IN, is offering homeowners pest prevention tips to prepare their houses for winter. The company offers pest control services for the Indianapolis area. They point out that there are several ways to avoid pests during the winter season. However, for those cases where the pest problem in a house has become out of control, it is advisable to get the services of an exterminator Indianapolis homeowners can count on.

A Perseverance Pest Control representative says, "There are a number of things that homeowners can do in order to avoid pest problems during the winter. First, it is advisable to always keep the food in containers made of hard plastic so the food would be inaccessible to pests like bugs. Second, it is important to avoid leaving food morsels on dishes easily accessible to bugs. It would be a good idea to soak the dishes in the sink in soapy water. Third, the trash, which may contain food morsels, should also be covered tight. Fourth, make sure to keep the house clean as those crumbs on the floor or rug can provide food to bugs. Finally, contact a pest control company so that they can inspect the home for any bugs or rodents."

For homeowners who need pest control services, Perseverance Pest Control offers the kinds of services

required by Indianapolis residents. That the company is able to provide quality and reliable pest control services is proven by the highly rated testimonials from past customers. For instance, Brian M., who gave the pest control service five stars, said "I am very happy with the service. It's a great price and great value. The technician who came out was courteous and polite and did a great job of explaining everything. He even informed me of a few things that I wouldn't have thought to ask about which was very helpful. Would highly recommend them and will use them again in the future."

Also on Google, Megan S. gave the company five stars and said, "I was visiting a relative in Fishers who had a scheduled visit with your company during my stay. I just wanted to say what a great job Lee did helping her with the bugs and he even answered some of my own questions. Talked to her today and she hasn't seen any more bugs and it's been a few months now. Wish I could find such a great company in my own home town."

Aryanna W. also gave Perseverance Pest Control a five star rating and said, "I highly recommend Perseverance Pest Control! They are very professional from my first contact with Sarah to the treatment taking care of by Lee. Both Sarah and Lee went the extra mile to answer questions before, during and after the service was provided. It's nice to see businesses as this one that still handle themselves in a professional matter."

The representative explains, "Perseverance Pest Control specializes in residential and commercial pest control. Our team of licensed professionals provide thorough diagnostics and treatments for general pests, rodents, stinging insects and biting insects such as bed bugs."

The pest control services Fishers, Indiana company was established in July 2016. It is owned by Brian C. who lives in Noblesville and is married to Molly who is a veterinarian.

One type of service provided by Perseverance Pest Control is spider control. This is a necessity for the whole year because spiders tend to stay in vegetation surrounding the home. Another kind of service offered is bed bug control. Bed bugs can be found even in the smallest crevices, which makes them very difficult to get rid of. Only a team of pest control professionals would be able to eliminate bed bugs.

The Perseverance Pest Control representative says, "We protect your home and family from invading pests. Call us to schedule your service or diagnostic today."

Meanwhile, Ashley C. also gave them five stars and said, "I could not have been happier with the service I received. The technician that came was informative and thorough. I would definitely use this company again if I ever have a problem and recommend them highly. I really like that this company is licensed and insured I would freak out if I just had some John Doe show up at my house. The person on the phone was able to tell

me who was going to show up at my house and when I could expect them. They really put me at ease with letting a stranger in my home thank you again for your professional treatment."

For those who need to locate Perseverance Pest Control, they can check the company's location on their Google Maps page at <https://goo.gl/maps/F6QGHy8CKrj>.
