

Best Sleeping Bag Launched By Venture 4TH

October 18, 2018

October 18, 2018 - PRESSADVANTAGE -

VENTURE 4TH®, the outdoor activity online store, recently announced that they have just launched their new sleeping bag. To celebrate their new product launch, they are offering their popular inflatable sleeping pad for free until the end of November. They point out that according to their assessment, it is the best sleeping bag within the price range.

Patricia Wright, the founder of the company, says, "This is a wonderful opportunity to not only get your hands on the best sleeping bag on Amazon.com, but to also get the inflatable sleeping pad for free with your purchase with the code "GETPADFREE". If you are an outdoor enthusiast, you are definitely going to want to take advantage of this great deal before the end of November."

The company says that their camping sleeping pad insulates users from the ground chill and is comfortable

enough for avid campers. The pad promotes a good night's sleep, is over 70 inches long and nearly 30 inches wide. It inflates to two inches thick and is lightweight, weighing in at only a pound. Wright says that this makes it optimal for campers and backpackers who already have loads to carry when they travel.

"It honestly is a great little pad for campers," says Wright. "The sleeping pad is ultralight and takes only 12-15 breaths to inflate."

Wright says that the backpacking sleeping bag alone is also very comfortable. She states that both bag and pad are currently available through the company or on their official Amazon seller's page. The ultralight pad is made with 210T waterproof polyester and designed to provide warmth and comfort. The company states that the barrel shaped sleeping bag provides plenty of room for moving around and remains comfortable all night long. They point out that in order to celebrate the release of their newest sleeping bag, they wanted to reward customers for their purchase by offering the sleeping mat for free. This offer will expire, according to the company, at the end of November 2018.

VENTURE 4TH ® says that their new bag is constructed for 3 seasons. Because it is lightweight, it does not weigh down backpackers and the sleeping bag is designed to keep occupants warm in 30 degree temperatures and will keep sleepers cool in temperatures of 70 degrees or higher. The fabric is waterproof, lightweight, durable and tear free. The company states that the material cannot be ripped or torn and the zippers are thoroughly tested to ensure that they work perfectly every time, guaranteed.

The company is an outdoor travel company that offers products to those who want to reconnect with nature. Wright says that they know that the most memorable moments happen in the outdoors and to help consumers to better enjoy their time outside, the company offers a wide range of products that are made of high quality materials and guaranteed to be durable and functional. All products are thoroughly tested for outdoor use to provide customers with the peace of mind of their quality. The company states that they provide the products and their customers provide the experience.

VENTURE 4TH ® provides products that help campers and backpackers to thoroughly enjoy their time outdoors. The company states that they are dedicated to providing their customers with only the highest quality tools and accessories available today.

The company offers a wide range of products including RFID safe passport wallets, secure RFID money belts, TSA padlocks, world travel adapters and many others. Outdoor enthusiasts who would like more information can visit the company on their official website to see all of the products that they offer. Alternatively, many of those products can be purchased on the Amazon marketplace by searching VENTURE 4TH ® .

The company states that they also have an official VENTURE 4TH ® Facebook page where interested consumers can enter competitions and stay up to date on any new products that they may be releasing in the near future. Their Facebook page also contains interaction from other satisfied customers to give consumers an idea of the quality of their products. Those interested can follow the company on their official Facebook page or visit them online to learn more about the products they offer.
