

Pest Control Service Now Providing Termite Inspections in Naperville, IL

October 09, 2018

October 09, 2018 - PRESSADVANTAGE -

Purge Pest Control Naperville is announcing that they offer numerous pest control services in the Naperville, IL area. The company states that their regular pest services include termite inspections for residential customers.

"We're happy to bring our new pest control services to the Naperville area," says the company. "Freeing our customers of pests is our passion and we work very hard so that they'll be satisfied."

Purge mentioned that termite inspection is a must have when purchasing or selling a home. The company states, "Even if you're not selling your home, our technicians are trained to rapidly recognize termite infestations, eliminate them just as quickly."

An insect inspection report tells buyers of a property about the presence of termites and other insects that are considered wood destroying insects. There are many insects that meet that fall in this category, including the well known termite, and the lesser known carpenter ant and wood boring beetle. Pest Control Naperville provides inspections that identify all bugs that destroy wood to provide a sense of comfort to purchasers and sellers of real property.

The company indicated that their inspectors receive professional instruction to be able to identify all signs of damage on the interior and exterior of a home. Purge Pest Control Naperville states that there are many indicators that a home has been infested, and their pest specialists are thoroughly trained to recognize them all.

Purge Pest's General Manager says, "Considering that a home sale can depend on an accurate pest inspection report, we take the job very seriously, and recognize that we're providing an important service to the buyer and seller."

In addition to termite inspections and control, the company also provides routine inspections and

extermination for a number of other pests, including mice, bed bugs and spiders. More about their new and existing services in the Naperville and surrounding areas can be seen on their official website at <https://purge-pest-control-naperville.business.site/>.
