October 09, 2018 -

Cornerstone Homes is introducing its latest line of elegant, cutting-edge, European-inspired kitchen and bathroom designs that feature exclusively imported cabinetry, as well as flooring, wall tiles, backsplashes, countertops and Calgary home renovations.

The kitchen and bathroom packages provide superb value and sophisticated design in every Inner Loop community of the Calgary-based residential developer and builder.

Cornerstone Homes developed its curated, interior design packages by monitoring and researching the most fashionable trends in kitchen and bathroom design and colors in Europe and North America. Homebuyers may choose from eight kitchen and bathroom packages.

"We make an effort to provide great designs for our affordable homes and a hassle-free process for our homeowners," said Justin Dallaire, executive chairman of Cornerstone Homes. "Our cabinetry is imported exclusively from Austria and Spain and is another example of our

dedication to design. The entire collection is perfectly coordinated, and each individual selection complements the rest of its package."

Many of the developer's cabinets feature elegant and clean Shaker designs in contemporary finishes and colors that will please a range of tastes. The durable, high-performance cabinetry provides long-term resistance to abrasions and changes in humidity and temperature. The cabinets are not available to any other Houston-area builder.
