

Go Green Carpet Cleaners in Las Vegas is Helping Home Owners with Their Pets

October 09, 2018

October 09, 2018 - PRESSADVANTAGE -

Go Green Carpet Cleaners commitment to helping families maintain a happy, healthy home for all family members, including pets. They are partnering with the local Animal Society to raise funds and support for their network of animal shelters across the country and further their efforts to encourage rescue pet adoption through our Cleaning for the Pets initiative.

65% of Las Vegas households have a pet.

Go Green Carpet Cleaners is proud to offer an array of superior cleaning services ? including their revolutionary Pet Urine Treatment that helps pet owners maintain a clean, safe and healthy home for both their two-legged and their four-legged family members.

Go Green Carpet & tile cleaning, a Las Vegas based carpet and tile cleaning contractor, announces, on their website the different services offered including technician training, company background and internet

only special offers.

Go Green Carpet & tile cleaning provides a full range of specialty cleaning and restoration services for commercial buildings and residential homes. Services include tile/grout restoration, carpet steam clean, pet odor eliminator, spot remover, grout re-coloring.

While pet owners love the four-legged members of their families, they don't always love their messes, especially when those messes leave behind unsightly stains. In fact, a new survey about Carpet & Upholstery reveals that nearly 80 percent of pet owners admit to masking stains instead of remedying them. Go Green Carpet Cleaners specializes in pet stains and odor removal, and they can help those homeowners.

Stains aren't the only things hiding in pet owners' homes. Those stains also leave behind unwanted odors and bacteria. And while more than two-thirds of pet owners said they not only want pet stains and odors, but also bacteria removed from their carpets and soft surfaces, current stain-fighting pet products don't always deliver on all three.

Many have even gone to such great lengths as to flip cushions (33 percent), rearrange furniture (23 percent), cover furniture (23 percent), entertain guests and visitors in other parts of the home (20 percent) and dim the lights (8 percent).

In addition to these techniques, 63 percent of pet owners say they have given up on cleaning the stains altogether and have instead replaced the items their pets' messes have ruined, with 40 percent spending more than \$100 in the past year.

But now their Pet Stain & Odor Remover plus Sanitizer provides pet owners with an effective clean they can trust. With one powerful formula they can destroy 99.9 percent of bacteria and eliminate tough pet odors for a cleaner, fresher home. Its formula permanently removes the toughest stains including vomit, feces, urine and blood from carpet and upholstery, while eliminating pet odors at the source.

Their formula can be used on other soft surfaces in the home, including stairs, area rugs, pet beds, cushions, couches and more, which is great news for pet owners' wallets.

Their Carpet & Upholstery process is a home cleaning product specifically formulated to help keep consumers' carpets and upholstery looking clean and revitalized.

Those interested can visit their website and schedule an appointment, or can call (702) 374-0057.
