Kordata and Elmtree System Announce Integration Partnership to Expand and Improve the Mobile Data Collection Processes for Construction Materials Engineering and Testing Companies

October 09, 2018

October 09, 2018 -
BOISE, Idaho and OKLAHOMA CITY, Oklahoma ? Kordata a leading provider of mobile data collection applications, and Elmtree System, today announced the partnership agreement to integrate Kordata?s mobile data collection technology with ElmTree?s construction material testing software to expand and improve mobile data collection processes.

Furthering its dedication to being a top enterprise mobile data collection solution provider, Kordata, LLC is pleased to announce its new strategic partnership with Elmtree System, a complete business management system for construction materials engineering and testing (CMET) and geotechnical engineering firms nationwide.

With its one-system management capabilities for construction material testing laboratories, Elmtree System works to help organizations automate and standardize their business processes across reporting, invoicing,

tracking and management in one integrated system.

Organizations are constantly looking to improve their data collection mechanisms, and need responsive, flexible and often custom solutions. It's no secret that the rapid pace of change impacts different industries in different ways. With this new partnership, stakeholders will have a world-class mobile user experience ? from improved and expanded functionality to a rich user interface.

?Elmtree System has a rich history of serving clients, large and small, with a one-system solution to manage their businesses. and Kordata is thrilled to have been selected as the premier partner to help Elmtree and its clients improve their mobile data collection experience,? said Erin Hutchison, General Manager of Kordata, LLC.

?Kordata has a deep knowledge and expertise in mobile data collection, which will prove to be extremely valuable for our current and future clients," said Cheryl Wilkerson, Program Director, Elmtree System.
