

Car Key Replacement Services Now Available In The Twin Cities

October 19, 2018

MINNEAPOLIS, MN - October 19, 2018 - PRESSADVANTAGE -

The Key Guys, based in Minneapolis, MN, has announced that they now offer car key replacement services in the Twin Cities, which is composed of Minneapolis and St Paul. A recent press release has announced this development, showing how they are helping people who have lost their car keys. They have a fleet of vans that can travel to and from various locations in the Twin Cities, helping those drivers who have lost their car keys.

Bryan Nystrom from The Key Guys says, "There's no need to get your car towed in the event that you have lost your car keys. We are a 24/7 locksmith service and you simply need to call us we will be there as soon as possible. And don't worry even if you have one of those newer cars that are now equipped with specialty keys. We have the capability to replace even such keys that you have lost."

The Key Guys have also added a Google site and they have already received almost 200 reviews and have an overall rating of 4.9 out of 5 stars. For instance, Betsy B. gave the service five stars and said, "Key Guys are awesome! It's concerning how often I lock my keys in the car, but luckily, these guys are wonderful to work with. My last experience with them was thankfully a while ago (keeping fingers crossed). In February, I locked my keys in my car on my lunch break and had to taxi back to my work. I called them and ironically, they were finishing a job less than a couple blocks away. They were able to get to my car, get the keys, and even bring the key set to me at my work in less than 30 minutes. They are fast, affordable, and the workers are very nice. Definitely a good number to have saved if you are at all like me!"

Bryan points out that they can go to the place where the vehicle is located and provide the necessary keys, whether these were lost or stolen. He says that dealers will usually require car owners to have their vehicles towed to the dealer's location, and only then will the dealer try to replace the car keys.

On Yelp, The Key Guys have also been reaping highly positive reviews. For instance, Drew H. gave them five stars and said, "Highly recommend! I called this company this morning. Recommended off Angie's List. The guy said he does most of his business with other companies and dealers, though not as often to the general

public. But these are the guys! The guy who helped me was professional, friendly, confident, and peppy. My key and remote fob hybrid for my modern car fell off the carbeaner, had me devastated. This guy was able to fully replace it, change the frequency on my car so the old key wouldn't work, and even gave me a spare standalone key in case something like this happened again! All of this was reasonably priced."

Also on Yelp, Katie O. gave them a five star rating and said, "I could not be more impressed by this company! Impeccable service and incredible customer service - which is crazy rare for me to admit. My purse got stolen, along with my only car key fob. They worked with my schedule, showed up at 8am (when they said between 8-10am), super friendly, very quick, and more than half the cost of towing it to the dealer to have them replace the key. So very happy I called them!"

The Key Guys point out that they have been serving the Twin Cities since 1988. Meanwhile, used car and service managers in dealerships have been dependent on The Key Guys for all of their car key requirements. All they need to do is make a phone call and locksmith experts from The Key Guys go to them to provide reliable, quick and professional service. The services provided include the replacement of stolen or lost keys, repair of broken keys, provision of spare or backup keys, removal of broken keys from cars, programming of a car key, programming of the transponder, replacement of batteries, cutting of a new key, and repair of ignition and doors.

For those who need more information about car replacement services can check the blog posts at the website of The Key Guys. For instance, they can check out the Minneapolis St Paul posts like the article on the need for a specialized auto locksmith for the repair of key fobs. These remote keyless system car key fobs are becoming the norm, especially with newer cars. Thus, it is important to have a locksmith who is knowledgeable about them.
