

WhiteSands Treatment Center Offers Drug Rehab Tampa Services

October 29, 2018

October 29, 2018 - PRESSADVANTAGE -

WhiteSands Treatment Center, based in Plant City, FL, has announced that they are offering drug rehab services near Tampa, Florida. They state that they have a unique strategy for treatment of drug and alcohol addiction that is tailored to each individual. They believe that no addictions are ever the same but are different for each patient. The drug rehab Tampa treatment center aims to discover that particular uniqueness for each patient so that they can develop the appropriate treatment plan.

Joe Ducey from WhiteSands Treatment Center explains, "WhiteSands Drug Addiction Treatment Center Tampa is a premier addiction center located in beautiful Plant City, Florida just east of the metropolitan Tampa Bay area. Our facility is designed to bring a sense of relaxation, calm, and peacefulness, allowing our patients to enjoy their recovery and rehabilitation process. We make sure that the patient feels safe and secure within their recovery environment so that they can be open and honest with others, and our staff."

The WhiteSands Treatment Center Plant City facility has a team of addiction specialists who have been proven to be compassionate and warm with their dealings with patients. A comprehensive assessment is made when accepting a patient. Daily activities and personalized counseling, along with a customized

treatment plan, are then used to help patients achieve recovery.

The WhiteSands drug rehab facility is located just east of Tampa Bay. It has an area of 50,000 square feet. It was previously a landmark resort hotel and entertainment complex with 270 rooms. WhiteSands renovated and transformed the property into a state-of-the-art resort treatment center with 150 beds. The facility includes a huge resort style pool, lounging area, picnic tables, tiki huts, and gazebos. It also has a huge dining hall, clubhouse game room, snack cafe, workout gym, and spa treatment rooms. Patients can have the choice of having a single occupancy room or a spacious double occupancy room. Every room is provided with a flat-screen TV, full-size beds, and a private bathroom.

The facility has several amenities and activities. These include massage therapy for relieving stress and promoting relaxation, services from a chiropractor to treat pain and mobility problems, biofeedback treatment to help patients cope with anxiety and stress, yoga classes for relaxation and physical well-being, haircuts for men, well-equipped work out gym, salon services with hair styling and nails for women, clubhouse game room, sand volleyball court, basketball court, and barbecue cook-outs.

The quality of the services at WhiteSands has been found to be excellent by previous patients and some of them have taken the time to post their comments on Google. For instance, Amanda C. gave them five stars and said, "This is the best rehabilitation center I have went to! They make you very comfortable! The groups you attend are very beneficial! They work with you in every aspect of the problem! [...] I highly recommend this treatment center! They are always standing by your side! They never gave up on me! Ever! I now have a bit short of 6 months and couldn't have done it without all the amazing staff and the facilitators! Highly recommended!"

Ashley M. also gave WhiteSands a five-star rating and said, "From the time I arrived in Tampa, FL I was greeted by wonderful staff. My experience at White Sands Tampa has been nothing but positive. Everyone from the office side of business, to the medical staff, and therapists - were exceptional. I would refer any of my loved ones or friends there for a new beginning in life."

Among the many treatment services offered at WhiteSands is the intensive outpatient treatment. They customize their alcohol detox and alcohol rehab programs based on the specific needs of each patient. Factors to be considered are age, history, health, and other considerations. But one common element of these programs involves regular visits to the treatment center, which is usually three times a week and include in-depth and frequent cognitive behavioral therapy. After spending a full day in the WhiteSands rehab facility, patients will be able to go home in the evenings.

Joe Ducey explains, "During your time at the treatment center, our professional team of board-certified doctors, educators, nurses, psychiatrists, and counselors will closely monitor your physical and psychological

progress, so your treatment program will be continually customized as necessary. In individualized therapy, you will explore the underlying reasons for your substance abuse and learn new coping mechanisms that will reduce the risk of future relapse. "

Those who need more information or who have loved ones who need help can visit the treatment center's website.
