

Plumber in Mobile Shares Common Summer Problems to Look Out For

October 12, 2018

October 12, 2018 - PRESSADVANTAGE -

Mobile, Al. - There are many plumbing issues that occur during the summer because the system is often being used more. In the summertime, children are out of school, parties are hosted, and people stay at home more which mean that the plumbing systems, such as the toilet, sprinklers, and washing machine have more wear and tear to them. All Clear Plumbing, a Mobile plumbing company, has shared a couple of summer plumbing problems that one should keep an eye out for.

Because of the extreme heat, those who want their grass to stay healthy and green need to water it constantly. Often times, sprinklers are left running throughout the whole day and forgotten about. Before running the sprinklers, check to see that everything is working properly and the water lines are clear. Plumbing systems can be a very costly thing to fix if left uncared for.

Russell Yeckley, the owner of All Clear Plumbing, said, "We want to warn people of the things they need to watch out for this summer before it costs them money they do not have."

Usually, the toilet is used more often in the summer than any other time. Summer is when people host

graduation parties, birthday parties, and cookouts which means more people are at the house and the toilets are being used constantly. If there are kids around, be sure to teach them the proper amount of toilet paper to use to avoid any clogging. A plumber in Mobile will be able to help if there are any plumbing issues with sprinklers, toilets, washing machines, or any other drain issues.

For more information or to request a job estimate, call All Clear Plumbing at (251) 210-8307 or visit their website at <http://mobilealplumbers.com>.
