

Christmas Decor NJ Company Launches New Website

October 24, 2018

October 24, 2018 - PRESSADVANTAGE -

Holiday Decorating of New Jersey in Marlboro Township has announced the launch of their new website. The company also announced that they are now offering residential as well as commercial Christmas holiday decorating services.

Edward Rogers, a representative for the Christmas decor company in NJ says, "The main difference between us and other companies is that we do not just install residential and commercial decor and lighting. We also take those decorations down for you after the holidays."

Rogers says that the company provides decorating for businesses and homes throughout the Marlboro Township and surrounding areas. He states that many home and business owners get so busy during the holiday season with shopping, entertaining and other activities that they simply do not have time to decorate as they would like to.

"This is where we come in," Rogers states. "We will come to you and do that decorating for you and we know how to make your home or business look festive and perfectly decorated for your holiday sales or entertaining."

Rogers says that the company's newly launched website offers more information on the residential and commercial services that they offer and states that those who are interested can learn more by visiting them online or they can find Holiday Decorating of New Jersey on Google Maps to learn more about their location and service areas.

Rogers states that the company goes far beyond simple Christmas light display installation. He says that the team can help to evaluate decorative spaces and help clients with their overall lighting design. He states that to draw in more aesthetically pleasing displays, the team focuses on high traffic zones and how to incorporate decor into those spaces for homes and for businesses.

In addition to providing those decorating services, Rogers says that Holiday Decorating of New Jersey completes every job from start to finish. He states that after the holidays are over, the team will come back out to the building or residence and clean up those decorations and restore the space back to its former condition.

The company says that with the holiday season being so busy, clients do not have time to worry about broken or not working lighting and other holiday decorations. Rogers says that part of every job that they perform is to ensure that clients are set with their decorations throughout the holiday season and that all of those decorations perform as they should. Rogers also states that because many home and business owners are on a strict budget during the holiday season, the company works to ensure that their services are affordable and that those services fit into their clients' respective budgets.

Rogers says that the company does not require that clients have their own lights or other decorations. He states that in order to meet their high quality standards, all lighting and decorations are provided by the company, in addition to any fasteners that are needed to hang and display those decor. He adds that if clients have special decorations that they would like to add to their holiday decor, they can have those added on request.

Holiday Decorating of New Jersey states that they strive to install and then remove lights and decorations on the dates that are requested by customers, but urges those who are interested to contact them soon to schedule their holiday decorating date as their schedule fills up quickly. He adds that weather conditions can often cause a change in the specified date as well.

The company states that their new website contains all of the information that clients will need to determine their holiday decorating service needs. Rogers says that those who are interested in learning more can read through the frequently asked questions page on the new website and find specific information that is designed to give home and business owners more information on their specific types of decorating. The company also states that clients can call for a free quote of the decorating that they need. Rogers states that

they simply call and provide an explanation of the type of decorating that is needed and the company can let them know the cost for their services, including maintenance and clean up after the holidays are over.

Those who are interested in learning more about the residential and commercial holiday decorating services offered by Holiday Decorating of New Jersey can visit them on their new official company website or contact them directly using the contact information provided on the site to request a free quote.
