

Five J Launches Special Customer Initiative To Buy Their Herb Grinders

July 06, 2015

July 06, 2015 - PRESSADVANTAGE -

Jacob Hoaglund, spokesperson for the company Five J, has announced that they have just lowered the price of their Herb grinder on Amazon. He said that this is a special initiative that they know shoppers will be excited about. The company has lowered the price of their Herb grinder to \$20.95 from its original retail value of \$29.95.

Five J said that they are very happy with the growing success that their product has achieved through Amazon, and they are also excited with the positive feedback they have been receiving from their customers. The move to reduce the price to \$20.95 is to keep the momentum going and to make their product a bit more affordable to shoppers that find the original price slightly out of their range.

The Herb Grinder from Five J is made with high grade aircraft aluminum, which helps to prevent the product from breaking or getting chipped teeth. It also has a strong magnet to keep the container sealed so that regardless of the position it is being used in, none of the contents inside can escape. The Herb Grinder has been designed to easily, and quickly, grind virtually any type of herb. One happy customer seems to agree in their following review: "Love, love, love this amazing little grinder. It's sleek, easy to use, and grinds quickly

and evenly. Don't know how I got along without this for so long. I just hope I don't wear it out too soon! Oh well, if I do, I'll just get another one, since it's reasonably priced and got to me within a day of ordering. Very nice product."

Five J said that their goal was to create an excellent product that consistently remains useful in the kitchen. They added that many of their competitors have claimed that they have the best grinder, but while they work well in the first few uses, within a short time period, they tend to break or don't yield the same excellent results. "We know how great our product is, and the positive reviews are proof of this. By reducing the price for a limited time, we hope more shoppers will take this opportunity to test our Herb Grinders out so that they can see for themselves just how effective they are," Jacob Hoaglund added.

Five J has stated that even after a full year, customers will still get the same great results from their Herb Grinder. The company is also offering all customers a 90 day no questions asked money back guarantee.

Those would like more details on the company or their Herb Grinder are encouraged to visit Five J's website. Shoppers will be able to find other products on the site that are sold by the company as well, and if they have any further questions regarding the company's products, customers can contact them through their email form, which is located on the Contact Us page. Five J welcomes any questions and are available 7 days a week.
