

## **Tree Service In Ellenwood Ga Expands Services**

*October 31, 2018*

October 31, 2018 - PRESSADVANTAGE -

Ellenwood Tree Pros, a tree trimming and removal service based in Georgia, is proud to announce the expansion of its services into Ellenwood, Georgia. Representatives from the company say that they are excited to serve more customers in Ellenwood and the greater Atlanta metro area. Their website can be found at <https://ellenwoodtreepros.business.site>.

"Georgia is covered with a large and diverse amount of trees all over the state," says a spokesperson for the company. "With the aftermath of the recent storms that have passed over Georgia, many people have had to deal with fallen trees and branches on their property. Trying to remove the debris could be dangerous, so we highly recommend people call us to help with the cleanup. Our emergency services can help with removing dangerous trees the same day."

Along with emergency tree services, Ellenwood Tree Pros also provides tree removal by appointment. The company's professional staff has experience with dangerous trees that have lost branches or have otherwise caused damage due to weather or age. The spokesperson Ellenwood Tree Pros says, "We can also come to your home and cut down any branches that might look like they're about to break off and cause damage. Even a tree that's leaning far can be a possible problem. Don't put yourself in a dangerous situation where you could get hurt trying to remove a tree. Let the pros handle it."

The spokesperson for Ellenwood Tree Pros says there are a number of things homeowners should look out for if they are considering hiring an arborist for their tree. First, determining the health of the tree is important. If half or more of the tree is damaged, for example, it may need to be removed because if it is left alone it could cause abnormal growth. The trunk of the tree should be checked for any damage around the circumference. Any dead branches should also be inspected, especially if they are on one side of the tree.

Homeowners should also find out about the history of the tree, as changes in the soil could lead to root damage and eventually the death of the tree. Also, if the tree has been damaged or stressed, sprouts could grow from the base of the tree. "If you see tree damage but aren't sure how to handle it, definitely give us a call," the spokesperson for the company says. "We can come to your house and properly assess any damage. We can also advise you on what kinds of trees plant best in your area."

Tree trimming and pruning are available for homeowners looking to keep the tree but aren't in any danger of damage. "There are a number of reasons why a tree may need trimming or pruning," the spokesperson notes. "Sometimes a tree has grown a lot of branches and they're dropping a lot of detritus on the ground, or may be growing so large that they're intruding on another property. We've had customers trim trees in for purely aesthetic purposes if it looks too unruly. Depending on where it is on your property, parts of the tree may not be getting enough light, or it could be blocking windows to your house and you want to get more natural light in there."

Tree stumps are also another problem that Ellenwood Tree Pros has experience in. They have experience in grinding down stumps with a specialized machine in order to remove them. "Grinding a stump is another dangerous way of removing a tree you shouldn't try on your own," the spokesperson says. "While stump grinding machines can be rented out, you may not be able to properly remove the stump completely."

Ellenwood Tree Pros not only covers the Ellenwood area, but also Lake City, Morrow, Forest Park, Mountain View, Sheffield Woods, and many more areas. More about the areas that Ellenwood Tree Pros covers can be found at <https://goo.gl/maps/kxLpw449X3w>.

All services from Ellenwood Tree Pros come with free estimates, and are fully licensed, bonded, and insured. "Every situation is different for every homeowner," says the spokesperson. "That's why when you call us, we will give you an estimate for free and give you an honest rundown of what kinds of work you'll need done. We believe in treating our customers with honesty and respect so they trust we can get the job done right."

Those who are interested in learning more about the services of Ellenwood Tree Pros are encouraged to visit their website or give them a call for an estimate. More news on the company can be found at <https://www.pressadvantage.com/organization/ellenwood-tree-pros>.
