West Auckland Painter Now Providing Full Commercial Painting Service

October 18, 2018

October 18, 2018 -
BJA Painting Services, the West Auckland Painting Company has announced they are going beyond residential painting and are now offering a full commercial painting service.

Any Auckland business that is looking to get their premises painted, be it a new restaurant, workshop, industrial factory or apartment building can look to BJA Painting Services to get a professional and prompt painting service.

The move to commercial painting came after BJA Painting Services extending their service area to cover all of Auckland, right from the tip of Wairewa and Puhoi to Bombay Hills and the Hunua Ranges.

Brian Arnold, the owner and operator of BJA Painting Services said, ?The move to commercial painting was just a matter of time. Since I expanded to cover all of Auckland city, I had the resources and manpower adequate to support the work of such a large nature. I already had a number of contacts in the commercial

space like the Lone Star Restaurants, so it made sense to open myself up to all the other Auckland businesses as well.?

Providing a commercial painting service turned out to be a wise move for this West Auckland painter from Massey as the number of new commercial estates cropping up around Auckland is numerous. From the extensive NorWest Shopping complex in Kumeu to the new industrial estate in Albany, North Shore, commercial painting work is becoming a much-needed trade and not many Auckland painters can keep up.

Of course, expanding to commercial painting and covering all of Auckland did not come with its fair share of challenges. With the casting of a wider net, BJA Painting Services started catching more leads and of a much larger variety.

?Brian says, ?Since I expanded, I have found myself being more of the foreman of the company and seeing to the day to day running of the business, meeting with clients and quoting, while my talented team does most of the work. I?m blessed to have such a solid team of painting professionals behind me as without them, this whole thing would sink during the first commercial job.?

Indeed the scale and vast amount of painting that a commercial property requires is a vast mountain to climb for any painting business and so having a large team of painters and support from leading painting brands is essential to ensure the painting work is completed on time.

Commercial painters require large amounts of paint and painting tools and companies like Resene and Dulux are always there to provide the endless liters of paint required to paint a whole apartment complex or a new restaurant.

Paint and painters are only the first two components of a successful painting business as the rest falls upon a solid team that is committed to providing a professional service that is always on time and works hard, day in and day out to achieve a top quality result.

BJA Painting Services noticed a large gap in the industry as Auckland offers a lot of house painters but not a lot of commercial painters, especially the variety that large building companies know they can rely on to get their painting done without issue.

Brian says, ?A lot of big building contractors do not have time to be chasing up trades and asking where they are, why haven?t they finished the painting yet and why is this area so patchy. I have received a lot of work from the big guys that had painters fall through and needed a reliable painter on the job immediately. I took them on and surprise, surprise, I got added to their little black book of trusted contractors.?

BJA Painting Services? reputation is growing in Auckland City and in time where work is uncertain with a shaky economy and raising taxes, the risky move of expanding the business certainly paid off for this humble West Auckland Painter.

?I started off painting bungalows and granny flats,? Brian Says. ?I never would have thought my little business could have grown to such heights. It just goes to show, if you are willing to work hard and put your all into it, it?ll pay off one day.?

BJA Painting Services are available for commercial painting work immediately. To arrange a free quote and paint consultation, visit the company website to get in touch.
